CHED REGIONAL MEMORANDUM
No. 40, s. 2020

TO : THE PRESIDENTS/ HEADS OF PUBLIC AND PRIVATE HIGHER EDUCATION INSTITUTIONS

SUBJECT : **Fast Tracking the Retooling of HEIs on Flexible Learning in Region V for Education 4.0—*"Professional Training for Teacher 4.0: Online Learning Module Writing"*, June 1 to July 21, 2020**

DATE : May 28, 2020

Pursuant to the pertinent provisions of Republic Act (RA) 7722, or the *"Higher Education Act of 1994"* and RA 11469 or "*The Bayanihan to Heal as One Act"*, this Office hereby endorses the subject undertaking for the information, support and participation of Higher Education Institutions (HEIs).

Spearheaded by the Ateneo de Naga University, Naga City, and sponsored by the Commission on Higher Education, this is a *"14-day online training designed to equip participants with pedagogical and ICT competencies needed in writing modules for flexible learning"*.

Attached to this Memorandum is the letter-request of Rev. Fr. Roberto Exequiel N. Rivera, SJ, President of the Ateneo de Naga University, Naga City, along with the copy of the Project Brief, for reference and information.

Target participants are faculty trainers, academic supervisors and ICT/IT specialists.

Widest dissemination of this Memorandum is desired by this Office.

Commission on Higher Education Region V
CHEDRO Building, EM's Barrio
South Brgy, 2, Legaspi City

Dear **Dr. Bernal**:

Ateneo de Naga University through the CHED project, **Fast Tracking the Retooling of HEIs on Flexible Learning in Region V for Education 4.0** will be conducting a series of online workshops entitled, *Professional Training for Teacher 4.0: Online Learning Module Writing*. Attached please find a copy of the training program, its rationale, description, objectives, and schedule of activities. Also included are the training schedules and target participants.

This 14-day online training is designed to equip the participants with pedagogical and ICT competencies needed in writing modules for flexible learning, to enable teachers to be more confident in shifting from one teaching modality to another. The training starts with activities on curriculum and instructional designing, followed by familiarization and utilization of ICT in education. The discussion will center on how these pedagogical and ICT skills can be leveraged for optimum learner engagement.

This CHED-sponsored training targets **900** participants from the various HEIs, SUCs, and LUCs in Region V and the training will be done in three batches of **300** participants per batch (Please see attached training schedule). Each HEI, SUC, and LUC may send three (3) participants (ideally composed of 1 faculty trainer, 1 academic supervisor, and 1 ICT/IT specialist) who have a stable Internet connection and can commit to complete the training and submit requirements by the deadlines.

We fervently hope for your endorsement of this professional training and may we seek your kind assistance in disseminating this information to all HEIs in the Bicol Region. For inquiries and registration, interested participants may contact Ms. Mona A. Adolfo, at telephone no. (054) 881-2368 or email at flexiblelearning2020@gmail.com.

Thank you.

Sincerely,

FAST TRACKING THE RETOOLING OF HEIs ON FLEXIBLE LEARNING IN REGION V FOR EDUCATION 4.0

PROFESSIONAL TRAINING FOR TEACHER 4.0: ONLINE LEARNING MODULE WRITING

Training Rationale

One of the best features of Education 4.0 is flexibility and accessibility of learning and these can be provided by modular instruction. Modules allow the learners to go through the material at their own pace and they may be used for self-instruction or to complement traditional approaches to instruction. Modular teaching approach has been widely used in many countries and in many disciplines, particularly in online learning, as it is associated with high success rate in learning and high degree of motivation among learners when designed following proven educational principles. Educational scholars have recognized that the individualized self-paced learning design of modules enables learners not only to experience temporal freedom but also to plan for their own learning. On the part of the teachers, a well-designed module enables them to facilitate instruction and guide students in attaining desired learning outcomes.

Training Description

This 14-day online training on Online Learning Module Writing is designed to equip the participants with pedagogical and ICT competencies needed in writing modules for flexible learning. The training starts with activities on curriculum and instructional designing, followed by familiarization and utilization of ICT in education. The discussion will center on how these pedagogical and ICT skills can be leveraged for optimum learner engagement.

The online training will be a combination of synchronous and asynchronous engagement for the participants to have actual online learning experience, which allows for self-paced learning while providing them immediate feedback on the workshop outputs. The participants are expected to be online for 2 hours, from 3 pm- 5pm from Day 1 to Day 14 to discuss any concerns encountered while doing the activities, present outputs, and discuss the strengths and areas for improvement. The trainers are expected to facilitate the synchronous discussion for two hours a day and 3 hours for asynchronous discussion. The training module pack and the orientation manual will be provided to them at least 2 days before the training starts.

This online training will use Google Classroom, an open access cloud based LMS component of Google Apps for Education, as a training platform. Google Classroom is free for schools upon signing up for G Suite for Education and thus has great potential as an LMS for financially challenged HEIs, SUCs, and LUCs.

Training Objectives

By the end of the two-week training, the participants are expected to have

1. Identified the most appropriate mode of instructional delivery (i.e., traditional, web-initiated, blended, and/or online learning) for a certain academic context.
2. Assessed one's level of preparedness for online learning and teaching.
3. Used reflections on personal teaching experiences as bases for design decisions.
4. Written an instructional module for a subject intended for online learning following the ADDIE and OBE principles.
5. Created a Google classroom and upload the module pack to it.
6. Conducted self- and peer-evaluation of the online learning modules using scoring rubrics intended for the purpose.
7. Shared strategies for facilitating online discussion, creating a sense of community, managing online classrooms, and maximizing student online engagement.
8. Created assessment plans and tools for student learning.
9. Developed a course evaluation plan to improve online instruction.
10. Written a reflection paper on the whole process, focusing on areas of strength and rooms for improvement.

Two-Week Training Program

Day	Topic	Training Objectives	Key Indicators
	Training Orientation	• Be familiar with the online training program policies, requirements, and expectations.	
1	Training Orientation • Creating an online learning community • Netiquette • Pre-test • Overview of Topic on ICT in Education • Online Pedagogy • Nature, Benefits, and Requirements of flexible learning	• Meet the course instructor(s) and fellow participants. • Assist in establishing a positive learning community. • Take the pre-test • Discuss the goals and tasks for the training. • Compare online learning to other modes of learning • Discuss the benefits and requirements of online learning • Discuss ICT challenges currently being faced	• Quality of participation both in the discussion forums and in the virtual meeting
2	Preparing to Teach Online • Essential Basic Computer and Internet Skills • Technical skills for students • Online Teaching Competencies	• Assess ability to succeed in online learning as a student and as a teacher • Identify strategies to improve technical skills	• Self-assessment of level of preparedness for online learning and teaching.

	• Creating rubrics and objective type test	• Use LMS assessment tools to facilitate timely and useful feedback for student learning	
13	Course Evaluation • Pre-course evaluation • Formative • Summative	• Design a plan for course evaluation	• Plan for online course evaluation uploaded into the GC
14	Post-test, training evaluation	• Take the online post-test • Evaluate the training	• Post-test results • Google survey form • Reflection paper

Schedule of Training Activities

Activities	Batch 1	Batch 2	Batch 3
Registration	June 1-8, 2020	June 1-June 25, 2020	
Orientation	June 5-8, 2030	June 19-2020	July 3-6, 2020
Online Training	June 8-22, 2020	June 22-July 6, 2020	July 6-July 20, 2020
Evaluation of Training	June 22-23, 2020	July 6-7, 2020	July 20-21, 2020

Prerequisite

Participants should have access to Internet and computer desktop or laptop and should have a working knowledge of using Internet browsers to navigate to web sites, using emails and other online tools for communication and using common instructional software (e.g., Word, PowerPoint).

Priority should be given to those who commit to complete the training and submit requirements by the deadlines.
