**PARTIDO STATE UNIVERSITY**

**I. Title of Proposal:**
**ADDENDUM TO THE "PUBLICATION AWARD" AND THE "TECHNOLOGICAL INVENTION AWARD:" CONFERMENT OF PLAQUE/CERTIFICATION DURING THE ANNUAL UNIVERSITY AWARDS**

**II. Proponent:** **Dr. Bernadette G. Gumba**

**III. Rationale:**

The Partido State University, through the passionate and innovative leadership of President Dr. Raul G. Bradecina, has made giant leaps to advance the research agenda of the region and the nation. Consequently, these and other investigative engagements of the university have produced significant addition to new knowledge and development of science. Therefore, it is vital that the faculty-researchers constantly endeavor to disseminate their findings particularly through publication.

Publication is a major deliverable of the university in its Physical Targets, SUC Levelling standards, qualification requirements for PBB, and qualification requirements for the granting of CNA, among others. Publication is at the core of RQAT and AACCUP standards. RQAT requires the faculty to publish in scholarly journals, ensure maximum utilization and dissemination of research outputs. Moreover, AACCUP evaluation indicators include recognition of faculty publication particularly on Area 2 on Faculty, Area 3 on Curriculum and Area 5 on Research. Therefore, every time a faculty publishes successfully, such accomplishment benefits the entire university and its members a multiple-fold.

Recognizing the faculty for one's publication and/or technological invention during the Annual Awards shall serve as a public pronouncement of the prime importance that the university places on publication/invention and public pronouncement of gratefulness of the university to the faculty concerned.

It is in the foregoing discussion that, as an addition to the existing monetary incentives, this proposal seeks the conferment of a plaque or certificate to the concerned faculty during the Annual University Awards.

**IV. Objectives.** The proposed policy aims to:

1. Grant institutional recognition to the faculty who succeeded in publishing and/or securing patent for their research/invention work in accordance to the policy of the university on research and development;
2. Provide an official documentation of the exemplary performance of the faculty through a plaque or certificate award;
3. Express deep gratitude to the faculty who contributed to the attainment of a major university target that cuts across multiple standards and requirements, not only for one's own benefit but for the entire institution and its members;
4. Manifest the prime importance that the university renders to the publication/invention success of the faculty.

**V. The Proposal**

It is hereby proposed that the university, through the Office of the VP for Research, Extension and Knowledge Management (OVPREKM), will confer a plaque/ certificate of recognition during the Annual University Awards to the faculty who has published or secured patent for invention.

**Mechanics:**

1. The publication/patent falls within the year covered by the university awards;
2. The publication/patent is approved by the Research and Development Office;

DATE: AUG 11 2023

3. A **plaque of recognition** will be conferred to the faculty who published their research in a journal indexed by Elsevier's Scopus, Clarivate's Web of Science Core Collection (Science Citation Index Expanded, Social Sciences Citation Index, Arts & Humanities Citation Index, Emerging Sources Citation Index, Conference Proceedings Citation Index, Book Citation Index, Current and Chemical Reactions and Index Chemicus), **and** ASEAN Citation Index. The same award will be conferred to research articles published with CHED-JIP or recognized journals.

4. A **certificate of recognition** will be conferred to the faculty who published their research in an international refereed journal but not included in those listed in no. 3 above.

5. A **plaque of recognition** will be conferred to the faculty who has secured an official patent for one's technological invention from the agency or organization duly recognized by the Research and Development Office.

VI. **Effectivity**: Upon approval by the University Research, Extension and Knowledge Management Council (UREKMC) on May 26, 2021.

RICKY P. LAGRETA, PhD
DATE: 11 2023

Republic of the Philippines

**PARTIDO STATE UNIVERSITY**

**I. Title of Proposal: GUIDELINES IN THE RECOGNITION OF PRESENTATION AND PUBLICATION OF RESEARCH OUTPUTS**

**II. Proponent(s): Dr. Bernadette G. Gumba**
**Dr. Ronnel R. Atole**

**III. Rationale:**

It may be argued that performance of higher education institutions are now measured to a great extent in terms of their research outputs. As such, it is an urgent need for the university to promulgate policies that will provide an enabling environment not only to sustain our gains but likewise motivate all faculty members to contribute actively in research efforts. This environment is not only one that provides incentives and rewards but a positive, facilitative, and accommodating climate where ideas can flourish free from subjective and arbitrary atmosphere.

The colleges and campuses are the primary delivery units of the university in addressing SUC levelling performance indicators, accomplishments of PBB targets, and compliance to CHED and DBM requirements. As prime movers in the accomplishment of the major targets of the entire university, one approach to the above scenario is the institutionalization of mechanisms that would cultivate a conducive research culture promoting efficiency in the processes involved, eliminating uncertainties and ambiguities in the perceived rules, and streamlining the system. While a perfect ideal environment is impossible, it is believed that where the colleges and campuses are clearly guided on the parameters surrounding the exercise of our research authorities, proposals, theories, ideas, initiatives, and creativities will likely propagate and thrive.

This proposal is focused on the procedural rules and criteria that will form as basis in the recognition of disseminated research outputs for purpose of university support, incentives, IPCR claims, OPCR accomplishments, and other similar systems.

**IV. Objectives.**

The proposed guidelines aims to:

1. Identify and define parameters that will serve as basis in the recognition of conference presentations and publications of research papers for university support; claim of achievement in IPCR/OPCR, SUC levelling, and other systems; and for grant of incentives;
2. Establish institutional procedures for the application of the parameters in the immediately preceding objective;
3. Provide unequivocal rules of action in the treatment of applications and/or claims for recognition of disseminated research outputs;
4. Encourage and assist faculty-researchers and authors to present their research outputs in regional, national or international conferences and publish the same in reputable publications;
5. Streamline the processes involved in claims for achievements on research output dissemination in deference to the advocacies for ease-of-doing-business; and
6. Empower and equip the Deans in order to positively engage their accountabilities along research outputs of their respective delivery units.

**V. The Proposal**

A. Definition of Terms

a. Reputable publications – are national or international journals of good standing, indexed in Scopus, ISI, WOS, or recognized by CHEd (for SUC levelling);

b. Research Output – for the purposes of this guidelines, this term is limited to papers produced out of internally and externally-funded research projects provided those pertaining to ongoing projects shall correspond to component-studies already completed;

c. Recognition – for the purposes of this guidelines, recognition of a research output presented in a conference or published in a journal shall mean its identification, categorization, or characterization as being compliant to the standards of the scientific community. When such output is recognized by the university, thru the rules provided herein, rights shall accrue to the authors/researchers for support, incentives, points in IPCR, points in delivery unit's claim for accomplishments and other permissible indicators.

B. Procedure On Conference Presentations

a. All claims / applications for support of presentations within the region must be approved by the VPREKM upon recommendation of the Research Director initialed by the Dean/s concerned; all others must be approved by the President upon recommendation by the VPREKM duly initialed by the Dean/s concerned. For this purpose, the existing Travel Order/Authority template shall suffice provided the applicant annotates in the Purpose section therein the Source of Fund (whether Trust Fund, or otherwise) and the title of the approved project;

b. All claims / applications shall be accompanied with the Notice of Acceptance (or similar document) by the organizing body, and the approved project proposal;

c. The Deans and the VPREKM shall, based on the following criteria / parameters, act on the application within fifteen (15) calendar days upon receipt thereof at the lapse of which the application shall be deemed approved should there be inaction on the part of the approving authorities:

i. The output to be presented is a research-based;
ii. The research output presented is as defined above;
iii. The paper has not yet been presented in any other external conference;
iv. The conference is endorsed by CHEd and other government agencies, or national and international venues recognized by scientific community;
v. The presentation was made within 3 years after the completion of the project;

d. Certification by the Budget office as to the availability of funds for travel expenses, registration fees, and other relevant expenses must be secured, unless the approved project has allocated budget for said expenses, in which case the Dean's recommendation should likewise certify that such allocation exists. For this purpose, it shall be the duty of the Dean/s concerned to see to it that the application complies with this requirement before his/her initial or recommendatory signature is affixed.

e. Three copies of the documents shall be prepared: one for the office of the Dean concerned, to be filed and secured by the Research Coordinator; one for the R&D office for monitoring and filing purposes; and one for the applicant;

f. Conference proceedings, narrative report, and other pertinent documents shall be submitted to the Deans concerned, and the R&D office within seven (7) calendar days upon return to office by the presenters without prejudice to other requirements under DBM/COA regulations;

C. Procedure on Publications

a. The Deans and the VPREKM shall, based on the following criteria / parameters, act on the application within fifteen (15) calendar days upon receipt thereof at the lapse of which the application shall be deemed approved should there be inaction on the part of the approving body:

i. The output to be published is a research output; or the output is a full paper corresponding to one previously presented in a conference.
ii. The research paper published is as defined above;
iii. The publication was effected within 3 years after the completion of the project;

iv. The journal is a reputable publication. Journals that charge publication fees are discouraged.

b. All applications for recognition of publications must be filed in a form to be created for this purpose, and to be approved by the University President upon recommendation by the VPREKM duly initialed by the Dean/s concerned. The application shall be accompanied with copy of the article's abstract, Journal's title page, table of contents showing the titled of the article, actual pages. Three copies of these documents must be prepared: one for the office of the Dean concerned, to be filed and secured by the Research Coordinator; one for the R&D office for monitoring and filing purposes; and one for the applicant;

**VI. Effectivity**.

Upon approval by the Board of Regents, provided all research outputs / papers that have been presented or published, or have been approved by university authorities for presentation or publication, even for ongoing projects, shall no longer be covered.
