TITLE: Proposed Incentives for the Citations of University Research Outputs

PROPONENT: LUISA M. LANCISO

RATIONALE

One of the indicators used to measure the performance of the University in terms of SUC Levelling is the number of cited works of ParSU Faculty. Citation here is a reference to a specific research article published in a refereed international publication (such as Elsevier Scopus, Thomson Reuters Journals), CHED accredited journals and books which acknowledged the scientific contribution or relevance of the cited article or research –based paper to the topic being discussed or to the research works being conducted by other agencies/ SUCs' researchers (joint Circular No. 1, s. 2016).

University accomplishment under citations in the past three years' indicator is expected to contribute 0.5 point in the levelling of our University which requires a maximum of 14 points. The University level at present is **Level III**, to elevate our University level to **SUC level IV**, we must get a total of at least 10 points under Research Capability and Output Key Result Area (KRA).

Thus, to encourage our researchers to contribute in the attainment of the maximum point of 0.5 under citation indicator and to incentivize them at the same time, this policy is being proposed.
