MEMORANDUM OF AGREEMENT

KNOW ALL MEN BY THESE PRESENTS:

This Memorandum of Agreement is made and entered into by:

The **LOCAL GOVERNMENT UNIT OF SAN JOSE**, Camarines Sur, a duly organized and existing Local Government Unit, under the Philippine Laws, with the principal address at Barangay San Juan, San Jose, Camarines Sur, hereinafter referred to as the **LGU-SAN JOSE**, represented herein by its Municipal Mayor, **HON. ANTONIO B. CHAVEZ**;

-and-

The **PARTIDO STATE UNIVERSITY-SAN JOSE CAMPUS**, a state university with the campus address at Del Carmen, San Jose, Camarines Sur, hereinafter referred to as **PSU-SJC**, represented herein by its President, **DR. RAUL G. BRADECINA**;

WITNESSETH

WHEREAS, LGU SAN JOSE, is mandated to provide better quality of life for its constituents through, but not limited to, Tourism Development, livelihood skills training opportunities for sustainable development and employment towards self – reliance;

WHEREAS, PSU, is a state university committed to provide quality instruction in the arts, philosophy, sciences, technology and other relevant courses and create competitive advantage in research, extension and productions services for socio-economic upliftment of the Bicolanos;

WHEREAS, PSU, in pursuit of its thrusts and commitment towards community development and people empowerment, offers a wide variety of extension and research projects and services anchored to its academic program designed primarily to develop community-based sustainable tourism development, increase food security, develop livelihood and industries, alleviate poverty, reduce literacy, improve health and nutrition, promote system of governance that supports and sustains human development, culture and arts, gender and development, disaster risk reduction and management, renewable sources of energy, and protecting and preserving the environment.

WHEREAS, PSU, through San Jose Campus envisioned to help develop tourism potentials in Partido Area has recently crafted a research project **Assessment of Tourism Development Potential of San Jose through Community-Based Participatory Action Research (SJCBPAR)**, whose primary objective is to develop a **Local Tourism Development Plan for San Jose, Camarines Sur.**

WHEREAS, the SJCBPAR Project likewise aims to assist this government instrumentality on their technical difficulties in the area of Tourism Planning and Development ranging from analysis of physical; social context; policy; tourism industry; attractions inventory; infrastructure and services; market demand; supply and competitiveness; human and institutional capacity; socio-economic; cultural and natural resource use considerations; and environmental and biodiversity footprint.

WHEREAS, the LGU SAN JOSE and **PARTIDO STATE UNIVERSITY-SAN JOSE CAMPUS** are in joint agreement and appreciation of the objectives and ventures of this undertaking.

WHEREAS, both parties shall adhere to the hereunder obligations and responsibilities.

A. The LGU SAN JOSE shall:

1. Review and endorse the project proposal and the corresponding agreement stipulated in the MOA;
2. Provide funding amounting to **Php.100,000.00** as budgetary requirements for the research project;
3. Assist PSU-SJC in the conduct of pre-evaluation/rapid appraisal/assessment of the affected stakeholders, host community, and concerned offices;
4. Provide primary and secondary data relevant to the project;
5. Assist in identifying and coordinating with the target participants and provide training venue, if necessary; and
6. Adhere to the joint ownership of the output-Local Tourism Development Plan.

B. The PSU-SJC shall:

1. Provide technical expertise and other consultancy services;
2. Conduct/implement Tourism Assessment and other relevant activities in the project;
3. Assist the LGU in crafting/developing the Local Tourism Development Plan; and assist the LGU in the implementation and monitoring of the project;
4. Prepare progress, terminal and other needed reports after completion of the project; and
5. Submit Local Tourism Development Plan for LGU San Jose.

The schedule of program of activities contained in the approved project proposal shall become integral part of this Agreement.

NOW THEREFORE, in consideration of the foregoing promises and covenants and subject to the terms and conditions hereinafter set forth and within the limits of the laws governing their respective existence the parties by these presents, do hereby bind themselves to **AGREE** and **ADOPT** this **Memorandum of Agreement**.

This Agreement shall take effect immediately upon the signing hereof and shall continue to be effective in one (1) year or until any of the parties withdraw with proper written notifications.

IN WITNESS WHEREOF, the parties have hereunto set their hands at LGU of San Jose, Camarines Sur and this 11th day of March 2019.

LOCAL GOVERNMENT UNIT OF SAN JOSE

HON. ANTONIO B. CHAVEZ
Municipal Mayor
LGU-San Jose

PARTIDO STATE UNIVERSITY
SAN JOSE CAMPUS

DR. RAUL G. BRADECINA
SUC President III
Partido State University

Signed in the presence of:

HON. VIRGILIO E. PANUELOS
Vice Mayor
LGU-San Jose

DR. ARNEL B. MILLESCA
Campus Dean
PSU-San Jose Campus

MR. DIOSDADO VALENCIA
Municipal Tourism Officer Designate

PROJECT PROPOSAL

I. BASIC INFORMATION

Research/Project Title : **ASSESSMENT OF TOURISM DEVELOPMENT POTENTIAL OF SAN JOSE, CAMARINES SUR THROUGH COMMUNITY-BASED PARTICIPATORY ACTION RESEARCH (SJCBPAR)**

Research Priority Area : Rural Community and Tourism
Implementing Agency Partido State University
Cooperating Agency : Local Government Unit of San Jose
Project Site : San Jose, Camarines Sur

II. WORK PLAN SUMMARY

Planned Duration of Study : January 2019 to December 2019
Planned Start Date : January 2019
Planned Completion Date : December 2019

Strategies of Implementation

Program Phases/ Major Activities	Implementation of Activities Calendar Year 2019											
	Q1			Q2			Q3			Q4		
	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC
Phase I. PROJECT PLANNING AND CONCEPTUALIZATION												
1. Gathering and review of related studies and literatures	■											
2. Preparation/conceptualization of research project	■											
3. Submission of research proposal	■											
4. Presentation and panel review of research proposal to Sangguniang Bayan	■											
5. Revision/incorporation of major/minor suggestions and recommendations	■											
6. Approval of the research proposal/Signing of Memorandum of Agreement (MOA)		■										
Phase II. PROJECT IMPLEMENTATION AND MONITORING												
1. Researcher's inception meeting		■										
2. Preparation of research materials/instruments, and equipment		■										
3. Validation of research instruments/materials		■										
4. Courtesy call to LGU and other concerned offices/associations and individuals		■										
5. Setting-up the meeting agenda/activities and schedules		■										
6. Coordination and dissemination of communications/letters to concerned parties/individuals/stakeholders			■

3. Final printing and soft-binding											■	■
4. Presentation to research conferences and concerned national offices and organizations; and submission to LGU-san Jose for implementation											■	■

III. TECHNICAL DESCRIPTION OF RESEARCH

Background of the Study/ Justification of the Research

Tourism has significant contribution in sustainable development, economic upliftment, and social benefits, if planned systematically (Mamun & Mitra, 2012). Thus, tourism in most developing countries especially the Philippines has been promoted by the national and regional tourism bodies. However, very little attention is given to rural areas and communities which have also a potential for tourism development (Taylor & Thole, 2013).

The fact that tourism is believed in boosting up economic activities through its multiplier effect, its development should be dispersed that exploits local cultural and natural resources in a positive way. These optimistic industry impacts should begin in developing tourism at destinations where potentials exist. Tourism Potential is a widely used and accepted term as it describes and perceives the attractiveness of a destination's attractions whether natural, cultural, and man-made; and further indicates the relations between demand and supply of tourism (Formica, 2000).

In order for a certain area to become a tourist destination it should be supported with the basic components of tourism such as attractions, accessibility, accommodation, amenities, and activities to ensure its industry operations and meet up with its dynamic demands. Hence, tourism potential assessment is vital to explore opportunities for developing area's tourism industry. In the tourism assessment process, the need for community involvement is more significant as it needs to be incorporated into the social and economic life of the community.

Part of the involvement of the local population can come in the form of empowerment: the community is given the responsibility to make decisions or, at least to be part of the decision making process, "there are at least five areas where local people can help to bring about nature tourism activities: information gathering, consultation, decision making, initiating action and evaluation." The local community needs to be involved from the beginning of the project to establish the area as a tourism destination (Lim, R.).

In this light, the researchers proposed this study that aims to develop the tourism potentials of San Jose as one of the rural areas in Partido rich in natural, historical and cultural resources. Furthermore, this initiative is in lined with the ten (10)-point socio-economic agenda of the present Philippine administration to promote rural and value chain development toward increasing rural enterprise productivity and rural tourism; as identified basic research priority of the Department of Science and Technology (DOST) for environment with focus on ecotourism and biodiversity; and as part of the nine (9) priority sectors with the

greatest potential to contribute in realizing the Philippine 2040 Vision under the Regional and Philippine Development Plan, 2017-2022 which recognized tourism services.

GENERAL OBJECTIVE

Generally, this proposed study aims to develop a **Tourism Development Plan** for San Jose, Camarines Sur.

SPECIFIC OBJECTIVES

Specifically, it aims to explore the following areas through the Tourism Assessment Process (TAP) designed by the Conservation International (CI) and The George Washington University (GWU), 2005, to perform the rapid assessment and analysis of tourism potential in a destination. These are:

1. Understand the general attributes of destination in terms of:
    - **a. Physical;**
        - ***a.1. geography***
        - ***a.2. environment***
        - ***a.3. biodiversity***
    - **b. Social Context;**
        - ***b.1. population profiles***
        - ***b.2. history***
        - ***b.3. cultural backgrounds***
    - **c. Policy; and**
        - ***c.1. political***
        - ***c.2. economic climate***
    - **d. Tourism Industry.**
        - ***d.1. known attractions***
        - ***d.2. existing hotels and services***
        - ***d.3. general trends in arrival***
2. Assess the tourism potential components of San Jose through:
    - **a. Attractions Inventory;**
    - **b. Infrastructure and Services;**
    - **c. Market Demand;**
    - **d. Supply and Competitiveness;**
    - **e. Human and Institutional Capacity;**
    - **f. Socio-Economic, Cultural and Natural Resource Use Considerations; and**
    - **g. Environmental and Biodiversity Footprint.**
3. Develop/propose **tourism development plan/projects** for San Jose, Camarines Sur.

METHODOLOGY

Study Area

This study will be conducted at the Local Government Unit of San Jose, one of the municipalities in the fourth district of the Province Camarines Sur.

Materials

The material that shall be used in the development of this study are the following:

Phase I-Assessment Preparation/ Destination Review. In terms of Physical *(geography, environment, and biodiversity)*, this will utilize printed and non-printed materials such as travel

guide books, topographical maps, local conservation organization publications, local/national natural resource management plans and other published related references.

Phase II-Tourism Potential Assessment. This shall use various information/data gathering materials that are presented below.

Phase III-Recommendations. The materials needed in this phase of the study are the gathered data/information in the Phases I and II that shall be used as a baseline for the formulation of tourism development project/plan in the proposed destination.

										X	X

Sources of Data

This study will gather data and generate information from the following as presented in the hereunder table.

Table 2. Sources of Research Data

Information Needed	Sources of Data
Geography, Climate, and Topography	Internet, travel guide books, topographical Maps, local/national tourism offices
Environmental, Biodiversity, and Natural Use Issues	Local conservation organization publications and websites (e.g. Conservation International, World Wildlife Fund, Nature Conservancy, and IUCN
Socio-Economic, Political, and Cultural Context	Government websites, travel guide books, newspaper, economic, sociology, and anthropological journals, magazines articles, and history book

Tourism Policies, Master Plans, and Marketing Strategies	National/regional tourism offices, Partido Development Administration, Local Government Unit, Tourism Promotion Board
Market Structures	World Tourism Organization reports/statistical references, local/ regional/national tourism statistics, travel guide books, tourism and hospitality management journals/publications
General Institutional Support	Local/regional/national tourism offices, local tourism associations
Information Needed	**Sources of Data**
OBJ. NO. II: Tourism Potential Assessment/Local Stakeholder Involvement	
Attractions Inventory (natural, cultural, heritage/man-made, recreational)	Destination's Tourism Stakeholders: • Government • Hotels and Resorts • Tourist Union • Guides • Utilities/Infrastructure • Concessions • Suppliers • Outfitters • Tour Operators • Attractions • Restaurants • SMEs • Churches • NGOs • Farmers • Visitors/Tourists • Cultural Resources • Education/Academe • Service Providers/Employees • Transport Group • Investors • Security and Safety • Media • Local community/host community • Local/national historians
Infrastructure and Services	
Market Demand	
Supply and Competitiveness	
Human and Institutional Capacity	
Socio-Economic, Cultural and Natural Resource Use Considerations	
Environmental and Biodiversity Footprint	
Information Needed	**Sources of Data**
OBJ. NO. III: Documentation/Reporting and Validation	
Public Community Meeting and Workshops and Seminars	Results from the following administered instruments/materials: • Attractions Inventory Checklist/ Worksheets • Attractions Inventory Evaluation Sheet • Infra/Transport and Public Services Inventory Checklist/Worksheets • Evaluation Sheets • Visitor Survey Questionnaires • Accommodation/Tourism Services Survey • Tourism Labour Force Profiling • Stakeholders Focus Group Questionnaire • Resident Survey Questionnaire • Tourism's Footprint/Ecological Survey • Structured/Informal Interview

Research Design

This study will be developed through employing **Community-Based Participatory Action Research (CBPAR)** and **Exploratory-Descriptive Research Method (EDRM)**. CBPAR is a framework for research that aims to address the practical concerns of people in a community. It is a collaborative approach to research that involves all stakeholders throughout the research process, from establishing the purpose of study, to developing and collecting the data, and to analysis and dissemination of findings. Hence, its application considering that the primary data will be generated/gathered from the various tourism stakeholders in the locality specifically the community itself.

EDRM will also be utilized as it is designed to be flexible in providing opportunities to discover ideas and thoughts from the respondents while describing/explaining the information for its characteristics and functions. This type of research is very suitable in this work since it will explore the tourism potentials of the proposed destination and likewise assess its individual characteristics /attributes for development.

Data Gathering/Procedure

This study will systematically apply the Tourism Assessment Process (Gutierrez, et.al, 2005) to determine whether a destination is suitable or unsuitable for tourism development. TAP is comprised of three phases that shall be used in gathering the data/information in the study area. Flow chart below illustrates the said phases of the Tourism Assessment Process.

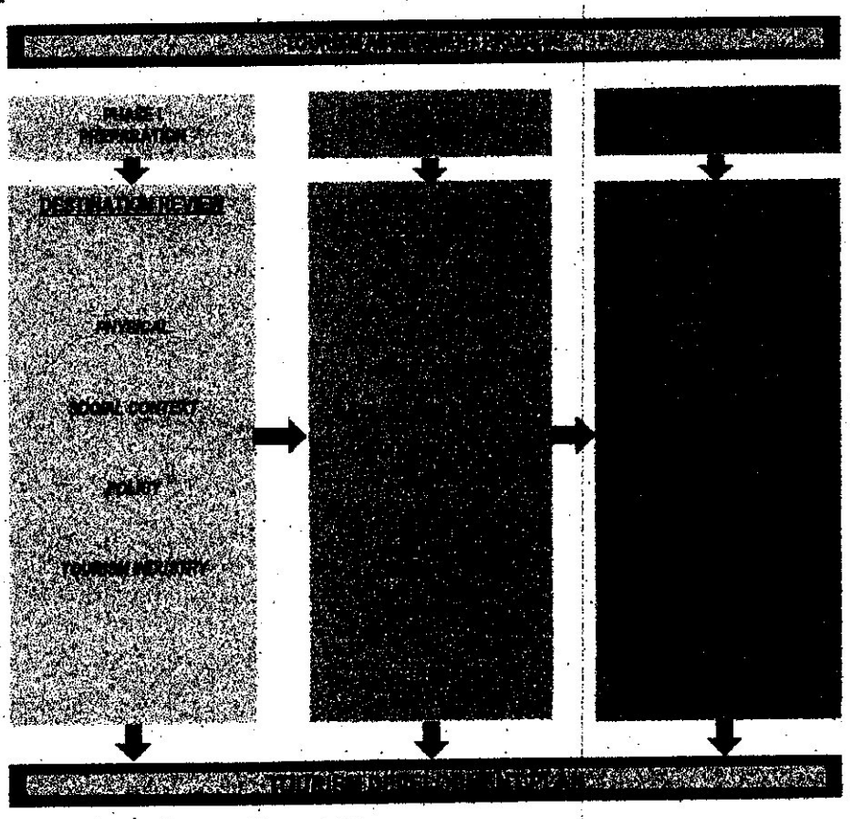

Figure 1. Tourism Assessment Process (TAP).

The Phase I of the process is an assessment preparation that focuses on gathering relevant preliminary information about the proposed destination. It is a general destination's review to *physical, social context, policy, and tourism industry.*

Secondly, the Phase II is tourism potential assessment that shall involve local stakeholders; conduct individual assessments on *attractions, infrastructure and services, market demand, supply and competitiveness, human and institutional capacity, socio-economic, cultural and natural resource use considerations, and environmental and biodiversity footprint*; and review assessments and identifying of major impacts and opportunities in the study area. The assessment to stakeholders will be done through public meetings, workshops, and individual consultations.

Lastly, Phase III centres on the recommendations whether *what type of tourism development and projects could be developed in the area, and what are the possible impacts, benefits, costs, and trade-offs in the destination.* This phase is considered critical for it will serve as a major basis in the development of tourism plan for San Jose, Camarines Sur.

Data Analysis

This study will employ the following research techniques and statistical tools namely: **documentary analysis; SWOT analysis; cost-benefit analysis; frequency counts; percentages**; and **weighted means.**

EXPECTED OUTPUT

Local Tourism Development Plan for San Jose, Camarines Sur

ESTIMATED BUDGET

I. PERSONAL SERVICES	0	0
Sub-Total		**0**
II. MAINTENANCE AND OTHER OPERATING EXPENSES (MOOE)	Representation Allowance (Foods and Snacks for surveys, FGDs, interviews, public meetings, etc.)	50,000.00
	Office Supplies and Materials	7,000.00
	Book binding	5,000.00
Sub-Total		**62,000.00**
III. TRAVEL & COMMUNICATION	Travel (immersion, surveys, etc.)	32,000.00
	Communication/Internet (internet load)	6,000.00
Sub-Total		**38,000.00**
IV. EQUIPMENT OUTLAY	0	0
Sub-Total		**0**

PERSON/S IN-CHARGED OF IMPLEMENTATION

Research Areas	Person/s In-Charged
PHASE I: DESTINATION REVIEW	
• Physical • Social Context • Policy • Tourism Industry	**NIÑO R. REBUYA** **ARNEL B. MILLESCA** **KIER P. GASGA**
PHASE II: ASSESSMENT OF TOURISM POTENTIAL COMPONENTS	
• Attractions Inventory (natural, cultural, heritage/man-made, recreational)	**EMY S. LASARTE**
• Infrastructure and Services	**ARIANE R. PESIMO** MARILOU N. PONGPONG
• Market Demand	**NIÑO R. REBUYA** MARITA V. MILANTE
• Supply and Competitiveness	**JOSSIE B. ROMERO** GINA R. DELA ROCA
• Human and Institutional Capacity	**MERICIA MILA A. AMADOR** GLORIA C. PASCUA
• Socio-Economic, Cultural and Natural Resource Use Considerations	**CRISTY V. NALDOZA** MANNY S. ISRAEL
• Environmental and Biodiversity Footprint	**JOCELYN P. AMATA** KIER P. GASGA
PHASE III: RECOMMENDATIONS/REPORTING AND FEEDBACKING	
• Public Community Meeting • Workshops and Seminars	**NIÑO R. REBUYA** **ARNEL B. MILLESCA** Project Management Team

Project Leaders	:	**NIÑO R. REBUYA**	**Dr. ARNEL B. MILLESCA**
Co-Project Leaders	:	MARITA V. MILANTE	Dr. JOCELYN P. AMATA
