About the Project

Project Title:

Mangrove Ecosystem Services Assessment for Conservation Strategies and Stakeholders' Willingness to Pay in San Miguel Bay

Component Studies

1. Community Structure and biodiversity Assessment of Mangrove Ecosystem in San Miguel Bay
2. Inventory of Ecosystem Services of Mangrove Forest and Narrative of the Benefits to Coastal Communities of San Miguel Bay
3. Assessment of Fisheries Production of Mangrove Ecosystem in San Miguel Bay
4. Contingent Valuation Study on Mangrove Forest Ecosystem Conservation and the fisher folks and coastal communities in San Miguel Bay
5. Socio-psychological Factors affecting Utilization and Willingness to Participate in the Management and Conservation of Mangrove Ecosystem of San Miguel Bay

Project Activities

This quarterly report provides a comprehensive overview of the research activities conducted by the research team during the period from January to March 2023. It aims to summarize the key findings, progress, and outcomes achieved throughout the specified timeframe. This report facilitates effective communication, evaluation, and strategic planning for future endeavors.

In this case, the project activities for the project as scheduled are the following:

- Implementation Progress
- Administrative Support Activities
    - Preparation of Inception Report
    - Procurement of project equipment and materials
    - Status of Memorandum of Agreements (MOA) with seven local government units (LGUs) surrounding San Miguel Bay (SMB); and securing Municipal Clearance
    - Securing of Prior Informed Clearance and Gratuitous Permit for Cabusao Wetland Critical Habitat and Mercedes Critical Habitat
- Research Undertakings
    - Site mapping
    - Development of Questionnaires
    - Conduct of Meetings
        - Cabusao Critical Habitat Management Council Meeting
        - Workshop Meeting
        - Virtual Orientation Meeting

Implementation Progress

The implementation progress of the research project has been steadily advancing during the reporting period.

Administrative Support Activities

The administrative support activities in this project, for the period of January to March 2023, includes the following: (1) preparation of inception report, (2) procurement of the project equipment and materials; (3) updating of Memorandum of Agreements (MOA) with seven localities surrounding SMB; and (4) securing of Municipal Clearances, Prior Informed Clearances and Gratuitous Permit for Cabusao Wetland Critical Habitat and Mercedes Critical Habitat.

During the implementation of this project, the project team and research staff worked together to develop and compile the Inception report. This comprehensive report encompassed the preliminary activities undertaken from September 16 to December 31, 2022. The inception report encompasses various essential components related to the pre-implementation phase of the research project. It encompasses a comprehensive summary of the administrative support activities undertaken during the period. It includes the processing for the hiring of Project Support Staffs IV and V, procurement of project equipment and materials, and drafting of MOA

with seven local government units (LGUs) surrounding SMB. In terms of research undertakings, the team focused on several key activities. They accomplished the spatial boundary delineation process, identified initial sampling sites for assessment of mangrove stand assessment and population distribution of coastal communities to be surveyed, drafted questionnaires for components 2, 3, 4, and 5, and conducted preliminary meetings.

There are undelivered project equipment and materials, so that the project support staff keep constant communication and coordination with the procurement office and suppliers. However, unpurchased equipment which have a higher cost being given by bidders were subjected for budget realignment (**Appendix 1**).

To ensure the proper implementation of the research study, various documents such as MOA, clearances, and permits were necessary. The research team prepared and submitted MOAs to the seven (7) LGUs around SMB. These MOAs were shared with the respective LGUs for their valuable comments and suggestions. Additionally, a copy of the MOAs was forwarded to the legal office of PSU for review. In addition to the MOAs, the research team also requested a clearance from the concerned municipalities. These clearances granted permission for the conduct of the study within their jurisdictions.

Two (2) municipalities have critical habitats. These are the Cabusao Wetland Critical Habitat of LGU Cabusao and Mercedes Critical Habitat of LGU Mercedes. The Department of Environment and Natural Resources (DENR) requires any researchers to secure a Gratuitous Permit before conducting a study. With this, the research staff prepared the requirements including the Prior Informed Clearance which will be issued by LGU or a council managing the protected areas.

Research Undertakings

In every research task, achieving efficiency relies on proper preparation and the adoption of a methodical approach. Starting January 1, 2023 until March 31, 2023, the following are the tasks which are accomplished by the project team, relative to the approved timeline of the project i.e., development of questionnaires; and conduct of meetings. The following sections will be discussing the details of the mentioned activities, including photo documentation and research outputs.

Development of Questionnaires

The survey questionnaires for Components 2, 3, 4 and 5 were further polished and improved using products of research. In order to ensure clarity and understanding, informed consent statements were incorporated into all survey questionnaires. These statements provide participants with detailed information about the research study and their role in it. Additionally, valuable insights and recommendations gathered during the workshop meeting with the Partido State University (PSU) President, Vice President for Research, Extension, Knowledge and Management (VPREKM), and Research and Development Director were taken into account in the finalization of the questionnaires.

Two (2) versions of survey questionnaires were developed: the English and Tagalog questionnaires. The decision to include a Tagalog translation was based on the feedback from stakeholders, as the majority expressed a preference for the use of the local language during data collection activities in the field. This approach aims to ensure effective communication and engagement with the participants, facilitating their meaningful participation in the research process.

Memorandum of Agreement (MOA), Clearances, and Permits

Table 1 shows the status of MOA, clearances and permits. All of the submitted MOA to the LGUs were in Sangguniang Bayan for resolution. Three (3) out of seven (7) requested clearance per municipalities were issued (**Appendix 2**). Two (2) requested prior informed clearance for critical habitats were secured (**Appendix 3**).

Table 1. Status of MOA, Clearances, and Permits

LGU	MOA	Clearance	Permit	Remarks
Siruma	*For SB resolution*	*On process*	N/A	
Tinambac	*For SB resolution*	*On process*	N/A	
Calabanga	*For SB resolution*	✓	N/A	
Sipocot	*For SB resolution*	*On process*	N/A	The LGU will only release a clearance once the MOA is signed.
Cabusao	*For SB resolution*	✓	Prior Informed Clearance: ✓	Submitted an application for Gratuitous Permit for Cabusao Wetland Critical Habitat to DENR R5
Basud	*For SB resolution*	*On process*	N/A	
Mercedes	*For SB resolution*	✓	Prior Informed Clearance: ✓	Submitted an application for Gratuitous Permit for Mercedes Critical Habitat to DENR R5

Meetings

Cabusao Critical Habitat Management Council Meeting

Matters Discussed

This meeting was organized by the Chairman of Cabusao Critical Habitat Management Council to take action on the request of Partido State University for "prior informed clearance" as a requirement for securing Gratuitous Permit from DENR.

The meeting was held in LGU Cabusao last February 08, 2023. In attendance were the representatives of the research team and the CCH Management Council of Cabusao Wetland Critical Habitat.

EnP. Carlo Gabriel, one of the project staff, presented a brief summary of the research study. After the presentation, one of the council members raised a question asking "what is the importance of this study?" He then answered the question saying that "since mangrove forests have no value in terms of monetary, the importance of the study is to determine the monetary value in conserving the mangrove forests".

Lastly, the chairman of the council took over the session and delivered the content of prior informed clearance. He then asked the members if they agreed with it, and everyone approved the content. The council signed and granted the clearance to the project team.

Internal Meeting

Matters Discussed

This internal meeting was held with representatives from PSU to update on the progress of the research study prior to its objectives and workplan.

The meeting was conducted in PSU Tinambac - Campus last March 10, 2023. In attendance were the project members from Partido State University - Tinambac Campus and Partido State University Officials as indicated in the table below:

Table 2. Attendees for the Internal Meeting held last March 10, 2023, with their corresponding designations and offices

MEETING ATTENDANCE		
ATTENDEE'S NAME	OFFICE	DESIGNATION
1. RAUL G. BRADECINA	Office of the President	SUC President III
2. PATRICIA M. CANDELARIA	OVPREKM	VPREKM
3. LUISA M. LANCISO	Research and Development Office	RD Director
4. ROMEO B. MORCILLA	PSU – Tinambac Campus	Campus Dean
5. DIVINA P. CHICA	PSU – Tinambac Campus	Principal Investigator
6. CEAZAR IAN B. PESIMO	PSU – Tinambac Campus	Project Staff
7. MIKKA ELLA M. CABRERA	PSU – Tinambac Campus	Project Staff
8. SEAN MICHAEL V. PANTE	PSU – Tinambac Campus	Project Support Staff IV
9. FERNANDO M. LLAVE JR.	PSU – Tinambac Campus	Project Support Staff V

The objectives of the meeting were to: monitor accomplishments of the research project; polish questionnaires for each component study; establish a work plan for the month of March; and other matters arising from the meeting.

Matters Discussed

There were three (3) agenda of the meeting.The first agenda was the presentation of accomplishments. This includes the presentation of produced maps and methods per component. GIS map produced by EnP. Carlo Gabriel was presented in the meeting. This map contains target sampling sites per locality. Objectives of the study were also presented to monitor accomplishments. Within this discussion, the PSU President suggested that created maps should be included in the manual. The research team must always make sure that accomplishments meet the objectives and observe schedules to ensure that they are on-track.

The second agenda of the meeting focused on polishing of survey questionnaires. Survey questionnaires of components 2, 3, 4, and 5 were shown to the officials. Comments and suggestions were raised by the President for the improvement of questionnaires. The following were the inputs: on section of socio-demographic and economic profile, under gender preference, include transgender male and female on the choices, and add number of years in school on highest educational attainment; component 2, stratification of respondents based on distance from mangrove forests and establish KAP; component 5, change income questions from categorical to continuous; component 3, change fishing industry section to fishery information section, organize questions, remove commercial fishing gears, include questions that will acquire data on volume and value of fish catch, and include a segment on cost of fishing operations;

component 4, properly establish conditions, provide concept, add estimates and statistics, provide hypothesis highlighting the condition in which the LGUs will have the intervention to conserve mangrove forest to ensure a sustainable productivity of mangrove forest; and all questionnaires should indicate code and number.

Lastly, a work plan was established for the month of March to be accomplished by research proponents and support staff. Objectives 1 and 2 contain training of transect method, follow up of gratuitous permit, coordinate guides, prepare survey equipment and finalization of questionnaires, training of enumerators, pilot testing and reliability test of questionnaires, and reproduction of questionnaires.

Virtual Orientation Meeting with the Enumerators

This meeting was held with representatives from selected enumerators from municipalities surrounding San Miguel Bay to orient them about the project and to discuss their roles and responsibilities in surveys.

The meeting was conducted via Google Meet last March 31, 2023. In attendance were the project members of Partido State University - Tinambac Campus and the selected enumerators.

Table 3. Attendees for the Orientation Meeting held last March 31, 2023, with their corresponding designations and offices

11. CHARLYN V. NAGUIT	Cabusao	Enumerator
12. EMMANUEL J. REQUEJO	Mercedes	Enumerator
13. JENELYN T. SABOCOR	Basud	Enumerator

Matters Discussed

The meeting commenced through a getting to know portion where the Project Team members and Prospective Enumerators mutually introduced themselves.

One of the aims of the meeting is to discuss the Nature of Contract, Targets and Rates of enumerators. For. Chica discussed the contract time frame/duration, processing, nature of hiring and roles/responsibilities. It is essential for the enumerators to be knowledgeable of their roles and responsibilities so they can perform to the utmost of their abilities. She also discussed the targets per municipality as well as the enumerators' rates. It was clarified that they would be compensated per questionnaire. As for the processing of compensations of enumerators, it was emphasized that they would be paid monthly and that checks would be delivered every LGU visit.

Next in line, Mr. Abante clarified to the enumerators the importance of acquiring a tax exemption form to maximize their payments as enumerators. This would help them claim their pays without tax deductions.

An open forum was carried out at the last part of the meeting to give time for the enumerators to provide their queries or any concern about the discussed topics. There were no notable comments from the enumerators. The meeting was ended by a short closing speech delivered by For. Pesimo.

Training on Drone Flying

On 13 March 2023, the research team conducted a training on drone flying led by EnP. Carlo Gabriel Abante (project staff). He presented the drone assembling/disassembling, controls, and drone flying. This training aims to familiarize the project team with drone basics.

The first part of the training was assembling/disassembling the drone, followed by controls (setting up, drone controller), and the last part, the drone flying.

OFFICE OF THE MAYOR

CLEARANCE

This is to certify that the researchers from the Partido State University – Tinambac Campus are permitted to conduct their research activities, in line with the implementation of their research and development project, funded under the Commission on Higher Education Grants-in-Aid (CHED-GIA) Program, titled, *"Mangrove Ecosystem Services Assessment for Conservation Strategies and Stakeholders' Willingness to Pay in San Miguel Bay,"* including the following components:

- Mangrove Forest Stand Inventory and Assessment
- Collection of herbarium specimens
- Collection of mangrove-associated juvenile fish assemblage
- Household interviews
- Focused Group Discussions (FGDs)
- Key Informant Interviews (KIIs)
- Other research-related activities

This clearance is valid from the date of issuance until September 15, 2024.

Issued this 9th day of March 2023.

WENY A. SABALBERO
Municipal Mayor

Republic of the Philippines
Province of Camarines Sur
Municipality of Calabanga

Office of the Mayor

CLEARANCE

This is to certify that the researchers from the Partido State University – Tinambac Campus are permitted to conduct their research activities, in line with the implementation of their research and development project, funded under the Commission on Higher Education Grants-in-Aid (CHED-GIA) Program, titled, *"Mangrove Ecosystem Services Assessment for Conservation Strategies and Stakeholders' Willingness to Pay in San Miguel Bay,"* including the following components:

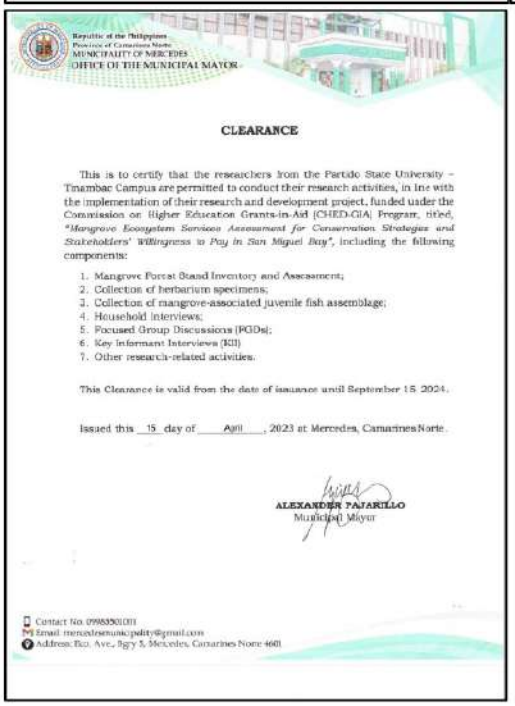

- Mangrove Forest Stand Inventory and Assessment
- Collection of herbarium specimens
- Collection of mangrove-associated juvenile fish assemblage
- Household Interviews
- Focused Group Discussions (FGDs)
- Key Informant Interviews (KIIs)
- Other research-related activities

This clearance is valid from the date of issuance until September 15, 2024.

Issued this 31st day of March, 2023.

CWCH RESOLUTION NO. 1, Series of 2023

A RESOLUTION GRANTING PRIOR INFORMED CLEARANCE TO THE PROJECT HEADED BY MS. DIVINA CHICA, PROJECT TEAM LEADER OF THE RESEARCH AND DEVELOPMENT GROUP OF PARTIDO STATE UNIVERSITY (PSU) WHICH SERVE AS ATTACHMENT TO THEIR REQUEST FOR GRATUITOUS PERMIT (GP) FROM THE DEPARTMENT OF ENVIRONMENT AND NATURAL RESOURCES (DENR) REGION V

WHEREAS, MS. DIVINA P. CHICA, PROJECT TEAM LEADER OF A RESEARCH GROUP FROM PARTIDO STATE UNIVERSITY, TINAMBAC CAMPUS, ZONE 2, BARANGAY BINALAY, TINAMBAC, CAMARINES SUR, THROUGH HER LETTER DATED JANUARY 20, 2023, REQUESTED THAT THE TEAM BE ISSUED A PRIOR INFORMED CLEARANCE WHICH IS A REQUIREMENT TO BE ATTACHED TO THEIR REQUEST FOR GRATUITOUS PERMIT (GP) FROM THE DENR REGION V;

WHEREAS, THE PROJECT TEAM TASKED TO CONDUCT RESEARCH STUDIES, INTEND TO COLLECT HERBARIUM SPECIMENS FROM THE MANGROVE AREAS OF THE CABUSAO WETLAND CRITICAL HABITAT, WHICH THEY CANNOT BE AUTHORIZED UNLESS THE DENR GRANTS THEM THEIR REQUEST FOR GRATUITOUS PERMIT (GP);

WHEREAS, THE COUNCIL DOES NOT SEE ANY HARMFUL AND ADVERSE EFFECT TO THE CABUSAO WETLAND BIO-DIVERSITY SHOULD THEY BE ALLOWED TO COLLECT SAMPLES OF HERBARIUM SPECIMENS;

THEREFORE, UPON THE MOTION OF COUNCILOR JERRY Y. AGUILAR, SANGGUNIAN BAYAN CHAIRPERSON OF COMMUNITY ON ENVIRONMENT AND CLIMATE CHANGES, DULY SECONDED BY, ENGR. SUSAN B. BASBAS, MUNICIPAL PLANNING DEVELOPMENT COORDINATOR OF CABUSAO, CAMARINES SUR, THE REQUEST OF PARTIDO STATE UNIVERSITY- TINAMBAC CAMPUS IS UNANIMOUSLY APPROVED;

BE IT RESOLVED, AS IT IS HEREBY RESOLVED TO GRANT PRIOR INFORMED CLEARANCE TO THE PROJECT TEAM HEADED BY MS. DIVINA P. CHICA, OF THE PARTIDO STATE UNIVERSITY- TINAMBAC CAMPUS, ZONE 2, BARANGAY BINALAY, TINAMBAC CAMARINES SUR.

RESOLVED FURTHER THAT COPIES OF THIS RESOLUTION BE FURNISHED TO THE SANGGUNIANG BAYAN THROUGH HONORABLE JOSE A AGUILAR, JR MR. EDGARDO AMPONGAN, COMMUNITY ENVIRONMENT AND NATURAL RESOURCES OFFICER; AND HON. WENY A SABALBERO, MUNICIPAL MAYOR OF CABUSAO, CAMARINES SUR AND OFFICE FILE, FOR THEIR INFORMATION AND REFERENCE.

I hereby certify that the above-mentioned resolution excerpted from the minutes of the meeting of the Cabusao Wetland Critical Habitat (CWCH) Management Council is true and correct.
