RFDG COMPLIANCE FORM

Project Title:	Upgrading of Tissue Culture Facility in Partido State University at Salogon Campus
Proponent/Agency:	Engr. Joel P. Sadol/Partido State University
Project Cost/	P2,479,474.50 (DA-BAR ACEF RFDG-P1.599,474.50; PSU-P880,000.00)
Project Duration:	June 5, 2023 – June 4, 2024 extended to September 4, 2024

	Comments/Recommendations	Action Taken	Page No.
General Objective To upgrade the tissue culture facility in Partido State University at Salogon Campus	• It is suggested to follow the DA-BAR prescribed format and highlight in the report the expected outputs, outcomes, and benefits of the upgraded tissue culture facility compared to its current state. • It is suggested to include the counterpart of the university in the sustainability plan (support, maintenance, etc.) for the free plantlets for the farmers, as well as a timeline for the duration of the project.	• The progress report was prepared following the DA-BAR prescribed format. It highlights the expected outputs, outcomes, and benefits of the tissue culture facility. • The project includes the counterpart of the University in the sustainability plan, as indicated in the financial, personnel, maintenance, and others)	• Research Facilities Development Progress Report; pp. 3-4 (Farm Level Application), pp 6-7 (Incremental Improvement/Outcomes; Service and Functionalities) • pp. 8-10 (Sustainability and Plan of Activities) Person/s Involved: Jenny Lorio

Specific Objective 1 To procure new apparatuses and equipment in replacement of outdated and non-functional apparatuses and equipment of existing tissue culture facility	• An agency counterpart amounting to P880k was allocated. The report indicated that the PPMP would be prepared upon project completion. It is suggested that the procurement should have been done during the project duration; otherwise, this objective will not have been met. • A list of approved equipment with corresponding budgets should be included in the report.	• The PPMP amounting to P880,000.00 was prepared for BOR approval. Whereas, the amount will be used for the procurement of laboratory equipment, apparatus, and supplies in the Tissue Culture Laboratory Facility of the University at Salogon Campus. Whereas, the procurement shall commence immediately during the project duration as the University's counterpart in the project. Wherefore, the request that the Administrative Council and BOR approved the procurement of Tissue Culture Laboratory equipment, apparatus and supplies to satisfy the agency's counterpart for the project. • The list of equipment with corresponding budgets is indicated in the progress report. The equipment totaled P880,000.00	• Appendix A. PPMP for Calendar Year 2024; Projects, Programs and Activities (PAPs) • Progress Report, pp. 20-21 and Appendix A. Person/s Involved: RDE, Budget, Jenny Lorio, Jake Janer, Procurement Office

Specific Objective 2 To renovate unoccupied building of Partido State University at Salogon Campus adoptable to tissue culture facility	• DA-ACEF funding amounting to about P1.6 million was granted. It is suggested that the issue of construction of new buildings vs renovations should be clarified with respect to government rules and regulation.	• The concern on the construction of a new building vs renovation was clarified and supported with the justification from the Physical Plant and Facilities unit of the University and an approved request to change the frontage design of the facility and	• Appendix B.1. Certification on the Percent of Project Completion; B.2. Justification on the construction of new building for the Tissue Culture Laboratory facility in PSU-Salogon Campus, from the PPF; B.3. Request and approval for the change of frontage design of the facility; B.4. Approved Technical Drawing Person/s Involved: PPF-Engr. Felipe Primavera
Specific Objective 3 To establish operational plan for tissue culture facility	• It is suggested that the operational plan should clearly highlight the benefits of the facility to ACEF's objectives of the increasing productivity of farmers. • It is suggested to attach the operational plan with the comprehensive discussion on the technical and financial sustainability strategy to sustain operations. The plan should also clearly indicate the targets related to improving the competitiveness of farmers after the project's completion.	The operational plan for the facility was crafted anchored to the RDE agenda of the University and the Salogon Campus. It highlights the activities and benefits for farmers and other beneficiaries for increasing productivity, and; the targets and strategies to sustain the facility's operation.	• Appendix C. Operational Plan for the Tissue Culture Laboratory Facility of Partido State University in Salogon Campus, 2024 - 2030 Person/s Involved: Maria Melania T. Sangalang and the agri-faculty members of Salogon Campus

Management	• There is a need to present a strategic catch-up plan to ensure that the delivery and establishment of a quality and sustainable tissue culture facility and updated equipment is achieved within the allowed project duration. • Make an IEC material containing the general details of the facility. It should promote the services offered and the corresponding price, if available. • If available, kindly include a certification or document stating that an annual amount will be allocated to the facility (for maintenance, supplies, etc.) • For the change of project leadership, kindly submit a request letter to DA-BAR for approval to formalize the transition.	• A strategic catch-up plan is presented in the report to ensure that the project objectives are achieved. It includes the fast-tracking of the procurement of the equipment, development of the operational plan, assignment of faculty in-charge, and allocation of budget for the operations and maintenance of the facility. • An IEC material, in the form of a brochure, was prepared, containing the general details such as the rationale, objectives, products and services to be offered by the Tissue Culture Laboratory Facility. • As the facility starts production of seedlings for sale and offering other services for fee affordable to its clients, 5% of the income will be allotted for the facility's operation. • In view of the early retirement of the Project Leader, Engr, Joel P. Sadol, a request letter for the change of project leadership, signed by the University President, is attached in the progress report, for DA-BAR approval, with the following details: ✓ Project Leader: Jenny P. Lorio ✓ Co-Project leader: Maria Melania T. Sangalang	• Progress Report, pp. 11 • Appendix D. Brochure for the Tissue Culture Laboratory Facility Person/s Involved: Ms. Emilyn Mae C. Esplana, Mr. Ariel Delfino, Mr. Thinez Bobis • Appendix F. Letter Request for the change of project leadership Person/s Involved: Jenny P. Lorio in coordination with OP

Financial	• Approved Budget: Php 1,599,474.50 • Liquidated: P0.00 as of 19 April 2024 • Approved budget should be disbursed before the end of implementation date.	• Duly signed/verified and audited financial report, report of checks issued, and subsidiary ledger indicating disbursed amount of P820,365.37 as of April 30, 2024 were submitted to the DA-BAR on June 3, 2024. • Full utilization of the approved budget from DA-BAR ACEF is on process and will be submitted at the end of project implementation.	• Appendix H. Audited Financial Report, Report of Checks Issued and Subsidiary Ledger as of April 30, 2024 Person/s Involved: Mr. Rey Balatico
Others	• Project duration: May 31, 2023 to present (on-going) • 1st Extension: approved until September 4, 2024 • The report should include proof that the equipment and facilities adhere to industry standards for a tissue culture laboratory. • For the project extension, a detailed work plan, schedule and coping mechanisms to address existing problems should be submitted a month prior to the end of the project.	• A letter to PhilFIDA, the agency with experts on tissue culture of abaca, will be sent after receipt and installation of laboratory equipment to request the services of its personnel who are knowledgeable on tissue culture laboratory to evaluate that equipment and apparatus adhere to standards. • The letter request for project extension and supporting documents, was submitted via email to DA-BAR on May 28, 2024 and hardcopy on June 3, 2024.	• Appendix I. Draft request letter for PhilFIDA • Copy of request letter, supporting documents and approval of request for project extension Person/s Involved: Jenny P. Lorio in coordination with OP
