FROM : **UNIVERSITY PRESIDENT**

DATE : **JULY 18, 2024**

SUBJECT : **IMPLEMENTING GUIDELINES FOR THE IMPLEMENTATION OF FLEXIBLE LEARNING IN THE GRADUATE PROGRAMS OF PARTIDO STATE UNIVERSITY**

Starting this First Semester of AY 2024-2025, Flexible Learning will be implemented as the mode of instructional delivery in all Graduate Programs of the university, in accordance with the pertinent provisions of Republic Act (RA) No. 7722, also known as the "*Higher Education Act of 1994*", the CHED Memorandum Order No. 04, Series of 2023 "*Updated Guidelines on Onsite Learning in Higher Education*," the CHED Memorandum Order No. 16, Series of 2022 "*Sustaining Flexible Learning in Higher Education: An Addendum to CMO No. 4, Series of 2020*," and specifically with due consideration on Section 3 on Implementing Guidelines, item No. 8, to wit "*In support of CMO No. 15, Series of 2019, Policies, Standards, and Guidelines in Graduate Education*".

The herein guidelines is hereby issued for the guidance of all concerned:

1. The graduate programs of Partido State University shall be conducted through onsite (in-campus) and online classes, spanning both synchronous and asynchronous learning, by adopting Flexible Learning as its mode of Instructional Delivery.

2. The graduate classes are conducted for 3 hours every week for 18 weeks (i.e., 54 hours or 3 hours a week). For the implementation of flexible learning, there will be 50% online (synchronous or asynchronous) and 50% onsite. Hence, there will be a total of 27 hours or 9 onsite (face-to-face) sessions and 27 hours or 9 online sessions.

3. The Google Classroom will be used as the official learning management system (LMS), for various instructional modes. As a result, all electronic learning resources - including those pertaining to in-person sessions - used to conduct synchronous and asynchronous class sessions will be accessible within the aforementioned LMS.

4. The faculty members' Google Classroom accounts will be accessible to the Dean and Department Chairs/Graduate Program Coordinators for the purpose of supervision and observation of the virtual classroom to guarantee that flexible learning is implemented in an appropriate manner.

5. The graduate students should be able to participate in both synchronous and asynchronous class sessions with a stable Internet connection in addition to other requirements (such as a desktop or laptop). This is true for the faculty members who are responsible for the delivery of online flexible Learning.

6. In addition to the Google Classroom, the official university email addresses (@pbox.parsu.edu.ph/@parsu.edu.ph) must be used for communication between the faculty and students.

7. Faculty members and students are expected to follow the guidelines provided in Republic Act 10173, often known as the Data Privacy Act of 2012. In particular, the parties' permission is obtained when online class sessions are recorded.

8. The conduct of online classes should be according to their regular schedule. If sessions will be conducted outside of the regular schedule, they will be required to notify the Department Chair/Graduate Program Coordinator.

    8.1. For the Department Chairs/Graduate Program Coordinators to monitor, faculty members are required to submit and give documentation reports on their students' attendance in both onsite and online (synchronous and asynchronous) class sessions. These reports must also be reflected in their respective Google Classrooms.

    8.2. In every synchronous online class, a Google Meet attendance report and screenshot of the conduct of classes must be uploaded to Google Classroom. It should be noted that following every session, Google Meet creates an Excel file with an attendance report that is sent to the instructor's PBox account. Faculty members are required to submit and provide documentation report on their students' attendance and accomplishment report in both onsite and online (synchronous and asynchronous) class sessions. These reports must be uploaded on time to the designated Google Classroom so that the Department Chairs/Graduate Program Coordinators are updated and can monitor the accomplishments of the faculty. The same documents along with DTR shall also be submitted in hardcopies to the Finance Office.

8.3. For online, asynchronous class sessions, there is no requirement to provide an attendance sheet or other comparable documentation. During the allotted asynchronous sessions in the allocated Google Classrooms, the Department Chairs/Graduate Program Coordinators can check and monitor the assignments and asynchronous tasks provided by the faculty. The student's "attendance" in this modality is determined by the deliverables that they submit via the Google Classroom.

9. The conduct of onsite classes will follow a schedule by program to be announced by the respective college deans. An attendance sheet provided by the college must be completed and submitted by faculty members every end of the month as part of documentary requirements with the Finance Office.

This shall take effect immediately. For the information and strict compliance.

ARNEL B. ZARCEDO, EDEL
SUC President III
