PARTIDO STATE UNIVERSITY ISSUED DATE: JAN 18 2025 SIGNATURE

Work Instruction (WI)

Title: **Academics Process**

1.0 Objective: To have a systematic flow in the facilitation of the instructional delivery systems in the University.

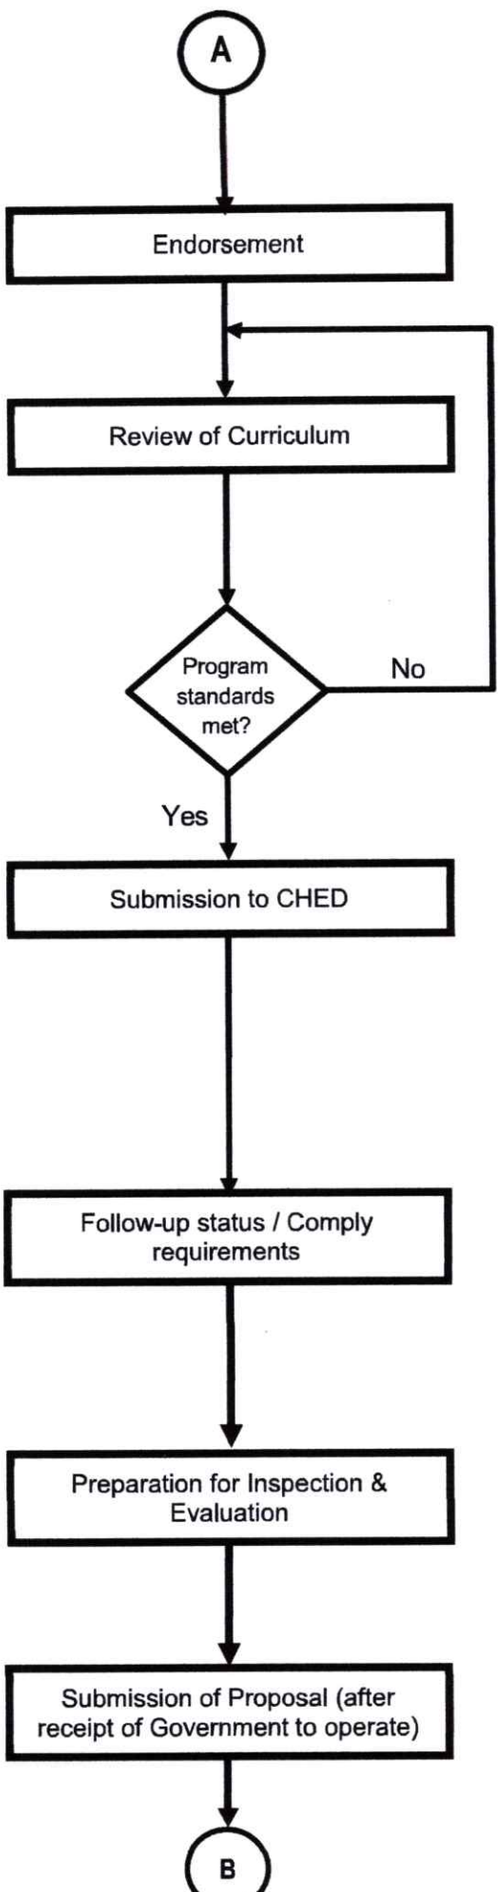

2.0 Scope: This work instruction covers the process from adoption of a CHED Memorandum Order (CMO) /revision of curriculum based on a CMO to graduation of students for undergraduate and graduate programs in colleges and campuses of the University.

PARTIDO STATE UNIVERSITY CONTROLLED

3.0 Procedure:

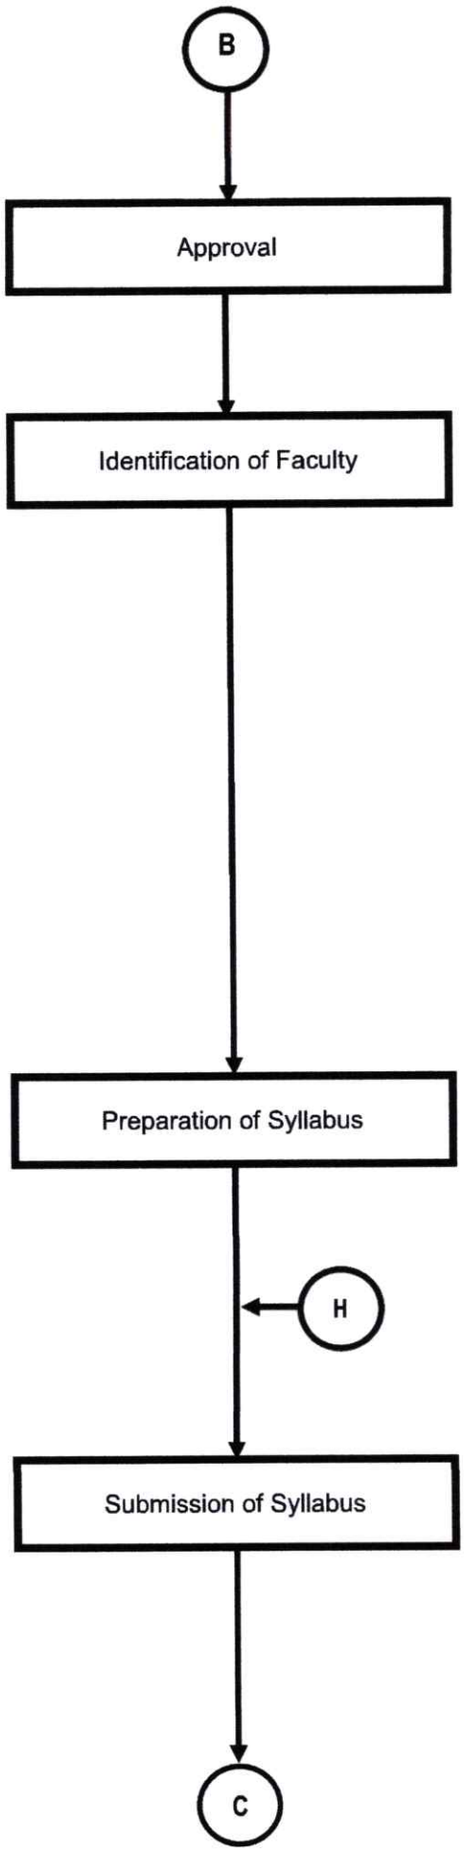

Process Flow	Responsibility	Details
Start		
Secure/Receive CHED Memorandum Order (CMO)	Dean / Associate Dean / Department / Program Chair / Graduate Program Coordinator / OVPAA / RMU	The Dean/Associate Dean/Department/Program Chair secures/receives new or revised copy of CMO from Commission on Higher Education (CHED). The Dean/Associate Dean Department/Program Chair/ Graduate Program Coordinator submits the CMO to the Office of the Vice-President for Academic Affairs (OVPAA) for validation. The OVPAA reviews the CMO and forwards it to the Records Management Unit (RMU) for control and issuance.
Design Curriculum (based on CMO)	College / Campus Core Faculty	If the Academic Program is one of the BOR-approved programs to be offered, the College designs the new Curriculum based on CMO and considers industry demand, needs of the students, feedback from alumni and other stakeholders. The prepared curriculum shall indicate the CMO where the Policies, Standards, and Guidelines (PSG), and other issuances are extracted as inputs.
Submission for Review	Concerned Dean / Associate Dean/ Department / Program Chair / Curriculum Committee	The concerned Dean/Associate Dean/Department/Program Chair submits the proposed new or revised curriculum to the Curriculum Committee for review, focusing on GE, Core, Professional and Elective courses, and compliance with CMO Policies, Standards, and Guidelines. The Curriculum Committee reviews the prerequisite, number of units, subjects to be taken, placement of subjects in the Program of Study per semester. The Commission on Higher Education (CHED) conducts regular evaluations, and the Professional Regulation Commission (PRC) inspects licensure programs to ensure compliance and ongoing improvement. Each college documents its assessment of program educational objectives and outcomes, comparing performance indicators against targets to identify necessary improvements. The outcomes of these improvement projects serve as evidence for Continuous Quality Improvement (CQI), led by CHED and coordinated under the University Quality Assurance Center, overseen by the Office of the Vice President for Academic Affairs (OVPAA). This strategic approach guarantees that curriculum development is efficiently managed, evaluated, and continuously enhanced. If non-compliant with the CMO, the proposed new / revised curriculum will be returned to the concerned proponent/s, together with the comments and suggestions stated in the minutes of the Curriculum Committee and in the Curriculum Review Checklists (PSU-F-ACA-01). For programs currently being offered, the review and update of curriculum shall be every 3 to 5 years to ensure relevance, alignment with national and global standards, and responsiveness to industry needs.
Program standards met?		
No		
Yes		
A		

Title: Academics Process

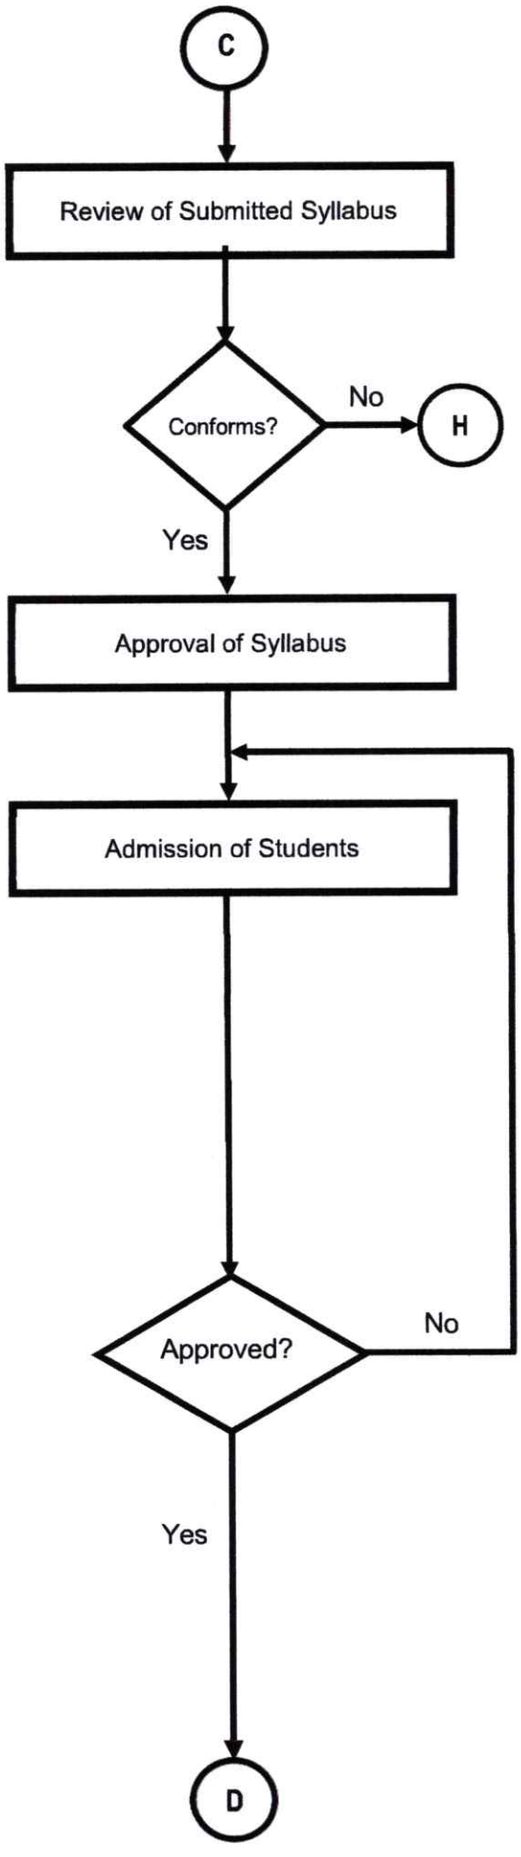

Curriculum Committee	The Curriculum Committee endorses the new / revised Curriculum to the Academic Council if found compliant with the CMO.
Academic Council	Academic Council reviews and verifies the proposed new / revised curriculum in accordance with the CMO. This is documented through the minutes of the Academic Council Meeting and Certification from the Academic Council Secretary dully signed by the VPAA. The Academic Council approves the curriculum under review for CHED Indorsement. If the curricular program documents fail to meet the program standards, they are returned to the proponent for revision. Once revised, the proposed curriculum will be presented again to the Academic Council.
Academic Council Secretary VPAA	After receiving the documents from the Academic Council Secretary, along with the signed transmittal letter, the VPAA submits them to CHED for endorsement. CHED ROV validates the proposed new / revised curriculum according to the requirements stated in the CMO. If the new curriculum is compliant, the University receives CHED indorsement and the schedule of the RQAT inspection and evaluation. If the revised curriculum is compliant, the University receives CHED indorsement for implementation of the revised curriculum.
Dean / Core Faculty Quality Assurance Center	The Concerned College, assisted by the QA Center, prepares the necessary facilities and documents for the CHED RQAT inspection required for its new/revised curricular program. Following the RQAT's evaluation, the College must address any findings to comply with requirements set forth. Throughout this process, the College and QA Center actively follow up on the status of the RQAT recommendation and the subsequent CHED decision, aiming to secure the final CHED Memorandum of Government Authority to Operate
College / Campus Quality Assurance Center OVPAA	The Concerned College Dean initiates the CHED RQAT inspection preparation process by compiling required documentary evidence and requests guidance from the Quality Assurance Center. The Dean oversees the process, ensuring compliance with CMO standards and conducting a final review together with the QAC and OVPAA.
OVPAA Board Secretary University President	The CHED Memorandum of Government Authority to Operate for the new curricular program is submitted to the Board Secretary for inclusion in the agenda of the Board of Regents (BOR). The University President is then responsible for presenting the proposal to the BOR for their approval.

Title: Academics Process

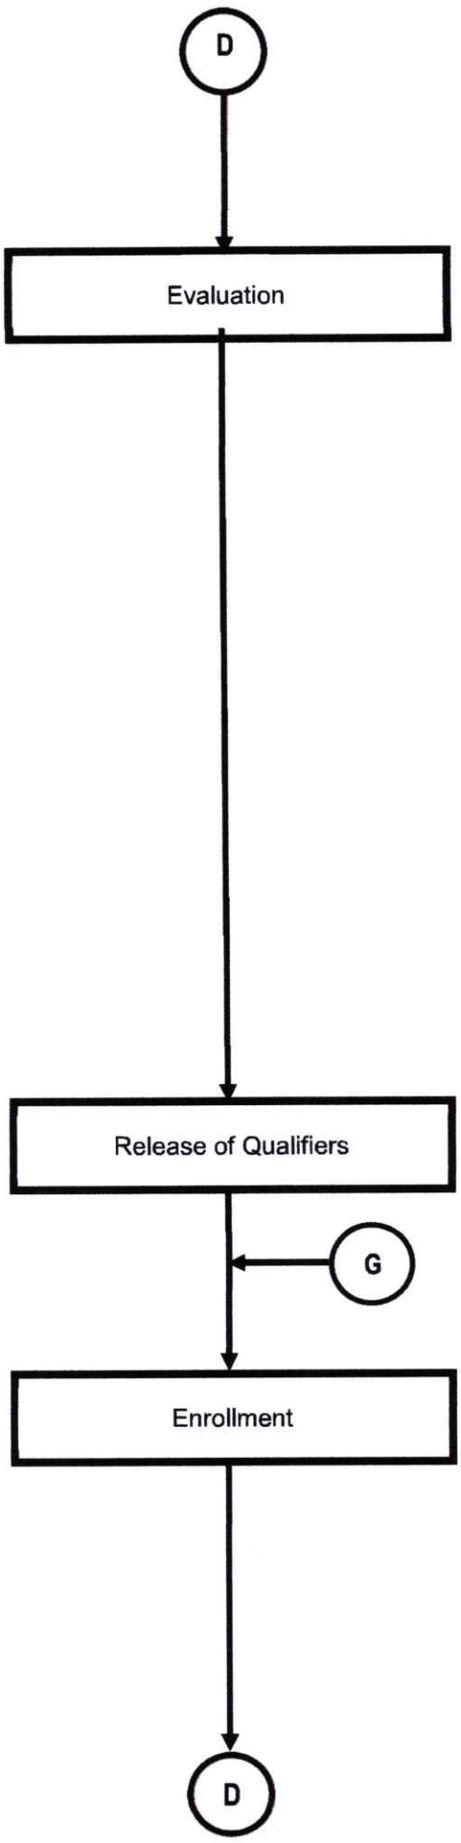

BOR	The approval of the proposed curriculum shall be effectuated by a BOR Resolution, which is to be issued to the OVPAA and the concerned college/department.
Dean / Associate Dean / Department Chair / Program Chair / Graduate Program Coordinator OVPAA	The Dean, Associate Dean, Department Chair (DC)/, Program Chair (PC), and Graduate Program Coordinator (GPC), following the approved Program of Study, identify and assign courses to the faculty based on their expertise and field of specialization. However, faculty may be given additional course(s) to meet the required number of faculty workload. The Dean, Associate Dean, Department Chair (DC)/ Program Chair PC)/, and Graduate Program Coordinator (GPC) also determine whether all courses offered are loaded to appropriate faculty with the required qualification(s). For the preparation of workload and the scheduling of undergraduate and graduate classes each semester, please refer to the latest issued memorandum outlining the timeline of activities. Based on the loading, if there is/are shortage(s) in the number of faculty to teach the course(s), the Dean writes a request letter for an additional faculty addressed to the University President for hiring. The University president approves the letter and proceed for hiring. Then, the Dean submits the final copy of subject loading to the OVPAA for load synchronization.
Faculty Dean	The faculty members are responsible for preparing the OBE-aligned syllabus for their assigned workload using the prescribed format of the university (PSU-SYL-Course Code). The faculty member ensures that the contents of the syllabus are consistent with the program outcomes and learning outcomes that are outlined in the CMO, including classroom policies, grading system, computation of grades, references of learning materials, Sustainable Development Goals (SDGs) alignment, and other necessary inclusions that are integral to the syllabus.
College Staff / Faculty Department Chair / Program Chair / Graduate Program Coordinator	An ecopy and hardcopy of the OBE-aligned syllabus must be submitted by the faculty to the College Staff, (if applicable), DC/PC or GPC within the designated timeframe. The College staff forwards the submitted syllabus to the concerned DC/ PC or GPC and monitors the submission and completeness of the syllabus.

Title: Academics Process

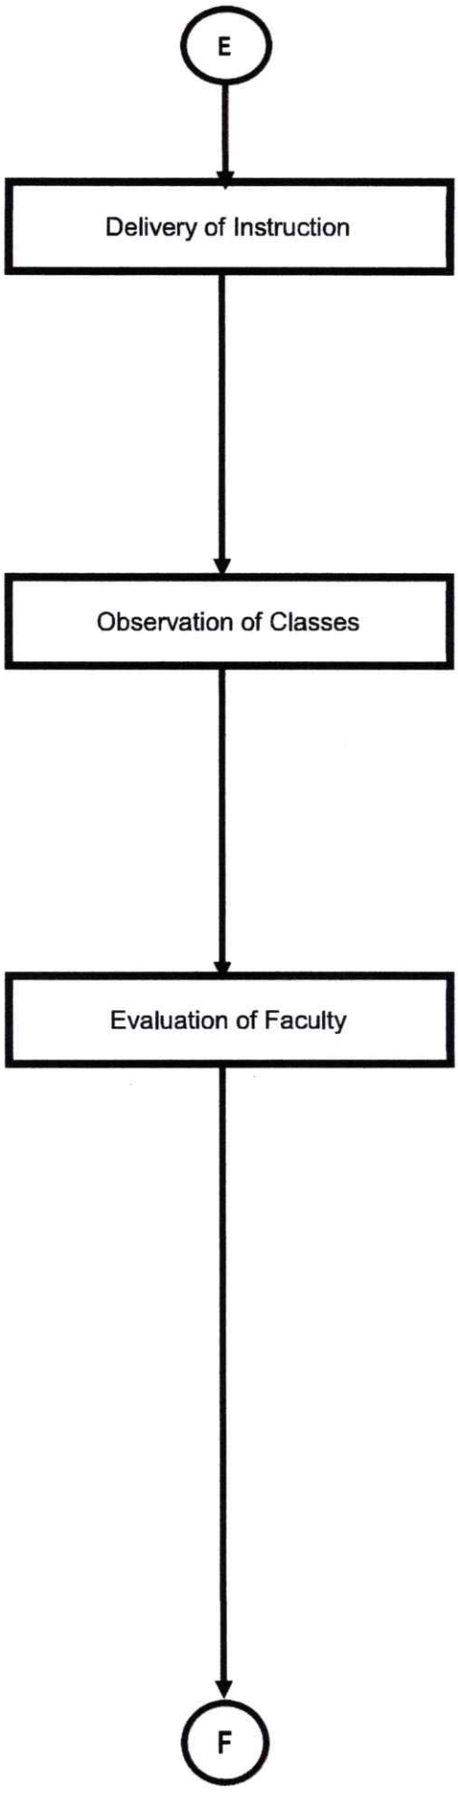

Department Chair / Program Chair / Graduate Program Coordinator	The DC/PC or GPC thoroughly reviews the syllabus to ensure that it conforms to the required format, code, title, description, units, and prerequisites, while also checks and reviews its contents in accordance with the CMO and Program of Study. If the syllabus does not conform to the applicable/appropriate CMO, Program of Study, and format, it shall be returned to the concerned faculty for revision. Once the syllabus is signed by the DC/ PC or GPC, he/she forwards the reviewed syllabus to the Dean for final approval.
Dean / Associate Dean / OIC Dean	The Dean is responsible for final reviewing and signing the syllabus in the approval section. In the absence of the Dean, for Colleges with no assigned/designated Associate Dean, an OIC Dean may sign the syllabus for approval, provided there is a memo detailing the assignment for approval.
OGAP OGAP Staff Testing Officers	**For undergrad:** The student-applicant accomplishes the ParSU Application Form (PSU-OF-GAP-01) though the Student-Applicant Management and Results System. Student-applicant selects their preferred date of submission then downloads the accomplished application form and the Student Personal Record (SPR) (PSU-F-GAP-10). The student-applicant submits the testing requirements at the OGAP.
Department Chair/ Graduate Program Coordinator	**For Graduate Programs**: The student-applicant submits the hard copies of the admission credentials to Graduate Program Coordinator. For evaluation purposes, student-applicant may submit electronic copies of the requirements through the college graduate program's official institutional email address. The College will notify the applicant via email regarding the status of their application.

Title: Academics Process

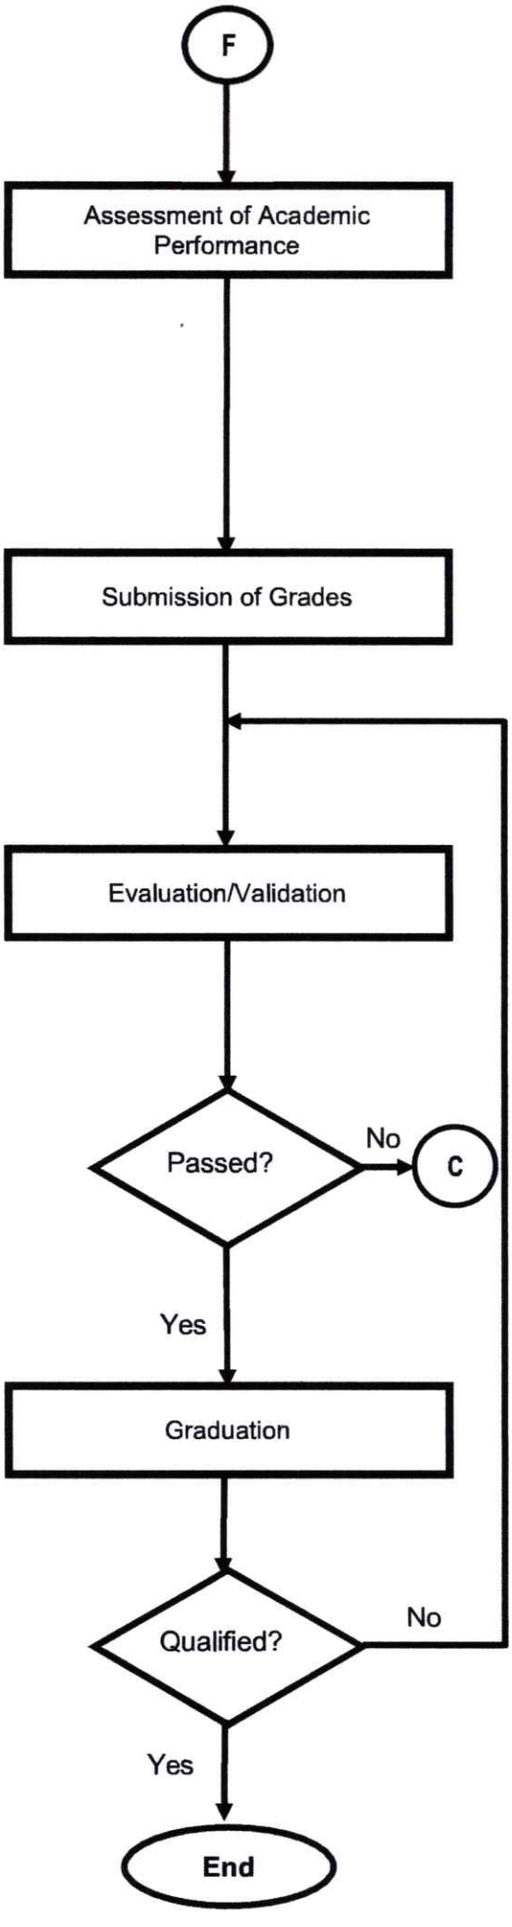

OGAP	**For Undergrad (Incoming Freshmen Students – Board Program):** Refer to the Admission Process with Exam (ParSUCAT) PSU-WI-GAP-01.
OGAP Department/Program Chair	**For shifters, transferees, and returnees**: The OGAP pre-evaluates Shifters, Transferees, and Returnees to filter either the chosen program is oversubscribed or undersubscribed. The OGAP endorses the student to their respective colleges based on their initial evaluation. The DC or PC evaluates the scholastic record of the applicant and determines whether the applicant is qualified to the program. The DC or PC determines credited courses aligned with the Program of Study to be taken for the current semester.
Department Chair Graduate Program Coordinator	**For the Graduate Programs:** For returnee student(s) the DC/GCP checks whether the student exceeds the maximum residency rule (MRR): for masters, 5 years; for doctoral, 7 years; For transferees, the DC/GCP evaluates the scholastics records of the student-applicant and determines credited courses based from the policies stipulated in the Graduate Program Manual of Operations (GPMO). Upon the completeness of the submission original copies of the admission requirements, the GPC submits these documents to the Registrar's Office
Dean Department Chair/ Program Chair/	**For undergrad:** The OGAP release/s the list of qualified students to enroll in each program to the Registrar's Office.
Department Chair/ Graduate Program Coordinator	**For Graduate students:** The College's DC/GPC officially informs the applicant about the admission results through email.
Dean Department Chair/ Program Chair/ Registrar OGAP	**Refer to the Online Registration for all types of students:** Regular Students (Old and New), Transferees, Second Coursers, Special Students, Old Irregulars, Returnees and Shifters (PSU-WI-URO-03)
	For Graduate students: new entrants must enroll in 3-9 units online per semester as specified in the course program and submit enrollment and assessment form with required fees at the Cashier's Office to be officially enrolled. For old students, submission of online clearance is required before enrolling in 3-9 units per semester, followed by submission of enrollment and assessment form and payment of fees at the Cashier's Office to be officially enrolled. Upon payment of the required fees, the system automatically validates the student's registration.

Title: Academics Process

Faculty Dean	The university implements technology enhanced on-site learning modality using both human-mediated and technology-meditated approaches/strategies of learning. **For Graduate Programs:** The University implements a flexible learning setup with 50% online and 50% onsite classes.
Dean/ Associate Dean/ Department Chair/ Program Chair/	The Dean / Associate Dean / Department Chair / Program Chair shall conduct classroom and/or laboratory observation to faculty during the mid and final term of the semester using the Classroom Observation Form for Lecture Classes (PSU-F-College Code-18) and/or Classroom Observation Form for Laboratory Classes (PSU-F-College Code-18A). He/she conducts feedbacking on the result of the observation and provides necessary interventions if the rating is below very satisfactory.
Students Department Chair/ Program Chair/ Associate Dean/ Dean	The evaluation of faculty performance in the university is conducted using two key assessment instruments: the Qualitative Contribution Evaluation (QCE) and the Individual Performance Commitment and Review (IPCR). Faculty members are evaluated using both the Individual Performance Commitment and Review (IPCR) and the Qualitative Contribution Evaluation (QCE) instruments. Students assess the faculty's instructional delivery performance through the QCE, which is facilitated by the Department Chair, Program Chair, Associate Dean, and/or the Dean. The result will be the basis for the teaching effectiveness of the faculty under the MFO1 of the IPCR instrument. Meanwhile, the IPCR instrument is used to measure the faculty's overall performance across their various functions within the university. The Dean, ssociate Dean, Department Chair, or Program Chair reviews and evaluates the IPCR and discusses the evaluation results with the faculty member, who then acknowledges and conforms to the assessment by affixing their signature. If a faculty member receives a rating below "Very Satisfactory," they will undergo appropriate interventions, including counseling, orientation, reevaluation, and/or training.

Title: Academics Process

Faculty	The faculty member assesses the academic performance of the student based on the grading system specified in the student handbook. **For Graduate Programs:** The grading scheme indicated in the GPMO is used to assess the academic performance of graduate students. Doctoral and master's students who completed all the subjects prescribed by the program are eligible to take the Comprehensive Examination. They should pass the examination before they could enroll in Thesis/Dissertation Writing.
Dean Faculty	Faculty encodes student grades directly to the web portal of the Student Information and Accounting System (SIAS) (https://my.parsu.edu.ph). Faculty submits a hard copy of grade report/s to the Dean's Office and the Dean furnishes a copy to the Registrar's Office. The faculty shall also submit a copy of the computation of grades to the concerned College.
Department/Program Chair Registrar	The Department/Program Chair undertakes the evaluation of students' grades against the applicable Program of Study to ascertain the satisfactory completion of the requisites and required coursework. Subsequently, the Registrar undertakes the validation of grades submitted by instructors. Moreover, the Registrar ensures adherence to established grading policies and procedures and detects any discrepancies or irregularities. If the student does not pass the evaluation, he/she will be recommended by the Department/Program Chair to reenroll/ repeat the subject/s. Validation is only applicable for undergraduate students. The passing grade is 3.00 or 75.00.
Student-Candidate Department Chair Program Chair Dean Registrar BOR University President	Student-Candidates accomplish the Application for Graduation Form (PSU-F-URO-50) to be submitted to the DC/PC and Dean for endorsement to the Registrar. The Registrar shall create list of candidates for graduation to be presented to the University Graduation Committee (UGC). The UGC endorses the candidates to the Academic Council for Board endorsement and approval. The BOR approves the list of candidates presented by the University President. The Registrar shall create the final list of candidates for graduation vis-à-vis with the student's completion of their remaining subject(s). If the candidate does not conform with the qualification standard(s) set by the different offices and committees involved in graduation, the student-candidate shall be subjected for re-evaluation.
