PARTNERSHIP INKED FOR RESOURCE ENHANCEMENT PROJECT AT LAHUY ISLAND

882 Views

By Development Communication Section

To rehabilitate the degraded coastal resources and reduce stress to the marine ecosystem in Caramoan, Camarines Sur, the Partido State University (PSU) partnered with SEAFDEC/AQD for the implementation of a resource enhancement project at the Lahuy Group of Islands.

The two institutions sealed their partnership on 11 April 2019 through an agreement signing held at SEAFDEC/AQD's Tigbauan Main Station in Iloilo, Philippines.

The collaborative research project will involve socioeconomic and resource assessment; social and biophysical preparation of the enhancement site; and stock enhancement of abalone and sandfish, if proven suitable in the area.

Implementation of the research program on Community-Based Abalone Stock Enhancement and Other High-Value Commercial Marine Species Habitat Management Using Social Marketing Approach in Lahuy Group of Islands in Caramoan, funded by SEAFDEC

The Partido State University is honored to welcome back **Dr. Rafe M. Brown**, a distinguished Professor of Ecology and Evolutionary Biology at the University of Kansas. This time, Dr. Brown's **Visiting Professor** stint in Partido State University for five (5) months from March 1 to July 31, 2025, is a competitive award that comes from **J. William Fulbright Foreign Scholarship** Board (FSB), the Department of State, and the PAEF Board. It is administered in cooperation with the Council for International Exchange of Scholars (CIES). As an internationally recognized herpetology expert, Dr. Brown will engage in groundbreaking collaborative research focused on terrestrial biodiversity, conservation, and the taxonomy of amphibians and reptiles in the Bicol Region of the Philippines. In addition to his research contributions, he will also serve as a professional lecturer for selected undergraduate and graduate courses at ParSU. Dr. Brown has received the prestigious Fulbright U.S. Scholar Award, which will enable him to spend a year conducting research and teaching in the Philippines. He is among U.S. citizens selected for this highly competitive fellowship for the 2024-25 academic year, highlighting his commitment to enhancing global education and research collaboration.
