PROGRAM TITLE: **Institutionalization of Faculty Industry Immersion Program for the Institute of Information Technology - College of Arts and Sciences** ***(BOR Res. No. 16 s. 2022)***

PROPONENTS: Institute of Information Technology-College of Arts and Sciences

OBJECTIVES:

1. To upgrade the faculty qualifications and competencies by acquiring a deeper understanding of industry production;
2. To improve the delivery of classroom teaching practices through industry visits and immersions in host establishments/companies/institutions locally and abroad.
3. To help the faculty in the acquisition of deeper understanding of industry practices, systems and management techniques in an international and even in local settings.
4. To inculcate strong work ethic and positive work attitude among faculty as observed in selected private institutions which have reached deregulated status and/or high ISO standards.
5. To align classroom instruction in the framework of Industrial Revolution 4.0.

RATIONALE

Immersion learning/ training is defined as the learning that occurs as a result of immersion in a particular environment. Therefore, it is characterized as an environment-related and environment-preparative method that employs aspects of multiple learning methods in addition to its unique environmentally dependent features.

Everybody knows that the industry work environment has changed dramatically during the last two decades, more specifically in the latter years, in the advent of Industrial Revolution 4.0 that requires the academe to come up with programs that will meet its requirement through Education 4.0. Prospective employees need to learn about industry-relevant topics, to understand and be able to operate in a context-oriented manner, to think innovatively, and todevelop and utilize good communication and interpersonal skills through teamwork and networking. The need was realized by the then o-IED Commissioner Patricia Licuanan and said, "Academe-industry partnerships will enable the country's higher education institutions to be updated with the latest trends and keep up with the demands of both the private and public sectors." In fact, CMO no. 25, series of 2015 (section 14.1.5) requires the faculty members to have an industry experience. Similarly, during the April 2021 RQAT visit to BSIT and BSCS programs, one of the remarks of the evaluators is "*the absence of the existing faculty members of an industry exposure within the last two years*", and the AACCUP recommendation for BSCS "*establishing industry linkages/partnership and consortia*".

Given the uncertainty of the situation due to the pandemic brought about by COVID 19, we need to respond positively. Learning and school operations has to continue even during this situation of uncertainty due to the pandemic brought about by COVID 19. Partido State University need to deliver what is expected from us and accept the challenges and turn those into opportunities. We still need to help and guide our students along the way and prepare them to the world of work and be globally competitive. The attainment of which depends largely on the skills, qualifications and competencies of the faculty. The need for faculty members of the Institute of Information Technology to ignite and sustain the innovative teaching practices that are updated and aligned with the need of the industry and the context of the present through faculty immersion.

It is within this context that this proposal is being made and suggested.

QUALIFICATIONS OF APPLICANTS TO THE PROGRAM

1. Must be in permanent, temporary or contract of service status.
2. Must have at least two years of teaching experience in the University.
3. Must have earned Very Satisfactory performance rating prior to application.
4. Must be in good health as attested to by the University physician.
5. Must have shown and proven a good working attitude and manners in the University before the application for immersion.

REQUIRED DOCUMENTS FOR SUBMISSION

1. Faculty Personal Data Sheet.
2. Recommendation from the Dean certifying that the applicant/faculty has the qualifications and the potentials to avail the program.
3. Medical Certificate signed by the University physician.
4. Copy of the Insurance Policy of the faculty-grantee.
5. Waiver releasing the SECOND PARTY from any liability in case of any untoward incident provided all necessary precautions were undertaken.

POLICY

1. The faculty immersion program must be and if possible be done during week-ends, semestral break or midyear break so as not to interfere with the regular classes.
2. A maximum of three (3) faculty members per program shall be allowed to undergo the faculty immersion program for every academic year.
3. The faculty grantee under this program must render at least ninety hours (90) in the partner industry/company.
4. The faculty grantee under this program is entitled of a three (3) unit deloading during or after the conduct/implementation of the program.
5. The grantee must submit a comprehensive narrative report at the end of the immersion

program. The narrative report must include section of proposal or project proposal approved by the partner industry. The presentation to the partner industry should be in the presence of the University officials.

6. The faculty grantee must conduct an immersion sharing after the training to his/ her colleagues.
7. It is expressly understood that there will be no employer-employee relationship between the Industry/Company and the faculty-trainee of the PSU.
8. The faculty grantee will be personally responsible for any and all liabilities for damage to property or injury to third persons, which may be occasioned by their intentional or negligent acts in the course of training;
9. The faculty grantee and PSU shall abide by the company's rules and regulations and comply with those imposed for the program; otherwise they shall be excluded from further participation.
10. Should any Intellectual Property (IP) be generated from this undertaking, rights and obligations of both parties shall be governed by R.A. 10055 or The Technology Transfer Act of 2009 and other laws.
11. Traveling expenses, per diem and other expenses shall be provided by the University on the duration of the immersion program, subject to relevant rules and regulations, if and only if the host industry/company will not provide for those.
12. The faculty grantee shall not reveal any restricted and/or confidential information of the industry/company including its clients and stakeholders, which he/she has accessed to, unless otherwise expressly authorized.

EFFECTIVITY

Immediately after the approval of the Board of Regent.

Proposed Requirements and Procedures in the Selection of Industry Partners for the Faculty Immersion Program of the Institute of Information Technology-College of Arts and Sciences

Requirements

1. The partner Industry must be duly authorized/recognized institution by the appropriate government entity/ies, i.e. Local Government Units, Securities and Exchange Commission, and Department of Trade and Industry;
2. Has the capacity to mentor, provide and facilitate the provision of appropriate technical training to the faculty-trainee;
3. Follow the performance evaluation system of the faculty-trainee provided by Partido State University;
4. Encourages the faculty-trainee to develop their personality and professionalism, and to extent possible, protect them from physical or moral danger.
5. Enter into an agreement with Partido State University;

Procedures

The Industry partner shall:

1. Orient the faculty-trainee on the standard rules and regulations of their establishments before the start of the training;
2. Facilitate the processing of the documents of the faculty-trainee in coordination with coordinator from Partido State University;
3. Provide practical training or work experience in accordance with the agreed plan and schedule of activities.
4. Develop feedback mechanism to Partido State University of the overall implementation of the internship and the performance of the faculty-trainee;
5. Provide monitoring and evaluation reports or other information on the faculty-trainees performance.
6. Notify and provide a written notice to PSU of faculty-trainee's breach of contract or misconduct in the training premises prior to the industry's decision to reprimand, suspend or terminate the faculty-trainee;
7. Issues certificate of training completion and performance evaluation to the faculty-trainee after the completion of training.

PERFORMANCE EVALUATION FOR FACULTY IMMERSION
For BSIT AND BSCS Faculty

Name of Faculty: _____
Name of Company: _____
Division/Unit Assigned: _____
Training Period: From _____ To _____ No. of Training Hours: _____

Direction: Please rate the student by checking the space that most objectively describes him/her. Use the rating below.

5 – OUTSTANDING 4 – VERY SATISFACTORY 3 – SATISFACTORY 2 – UNSATISFACTORY 1 – POOR

A. COMPETENCE

	5	4	3	2	1
1. Communication Skills					
1.1 Has a very good command of professional vocabulary	___	___	___	___	___
1.2 Can present ideas articulately and persuasively in a complex discussion	___	___	___	___	___
1.3 Can express himself/herself fluently and spontaneously	___	___	___	___	___
2. Technical Skills					
2.1 Awareness of different ICT tools and equipment	___	___	___	___	___
2.2 Knowledge on Systems Development and Integration	___	___	___	___	___
2.3 Awareness on Web and Mobile Computing System	___	___	___	___	___
2.4 Awareness on IT Management and Product Quality Assurance	___	___	___	___	___
3. Professional Skills					
3.1 Able to introduce a system, program, design or new technology	___	___	___	___	___
3.2 Able to analyze the industry's Strength, Weaknesses, Opportunity or Threat	___	___	___	___	___

B. CRITICAL FACTORS

1. Courtesy – Polite, kind and thoughtful behavior toward the public/clientele in manners of speech and action	___	___	___	___	___
2. Human Relations – Concern for the people at work; harmonious relationship in the workstation	___	___	___	___	___
3. Punctuality and Attendance – Observed behavior in coming to office on time or to be present at work to complete assigned task	___	___	___	___	___
4. Initiative – Starts action, projects and performs assigned task without being told and under minimal supervision	___	___	___	___	___
5. Judgment/Decision Making – Ability to develop alternative solution to problems; to evaluate facts or courses of action & reach sound decision	___	___	___	___	___
6. Stress Tolerance – Stability of performance under pressure or opposition. Consistent, confidence even during stressful conditions at work.	___	___	___	___	___
7. Readiness for Service – Readiness to serve the clientele, peers and supervisors; presence at the station/office to complete assigned responsibilities, not engaging in unofficial matters like chatting, eating, telephoning etc. while the client is waiting	___	___	___	___	___
8. Cleanliness and Orderliness of Work Area – Work area is clean, organized, orderly and cleared of unsightly items.	___	___	___	___	___
9. Grooming and Appearance – Has a neat and presentable appearance, wears proper uniform an ID	___	___	___	___	___
10. Commitment and Dedication – sensitivity to the client's ability and needs. Makes himself available to supervisors, peers and clients for assistance beyond official time	___	___	___	___	___
